POLICE CHIEF HELD FOR MURDER

FOUR OTHER POLICE OFFICERS IN TOILS AFTER MIAMI PROBE

Grand Jury Reveals Two Murders By Policemen.

MIAMI, Fla., March 24.—Five policemen, including Chief of Police Leslie Quigg, were held in the county jail without bail today following sensational developments in the grand jury investigation into two mysterious murders, one of which occurred two and one half years ago.

Chief Quigg, Lieut. M. A. Tibbetts and Detectives John Caudell and Tom Nazworth are held on first degree murder charges in connection with the death of H. Kier, a negro bellboy, allegedly a victim of third-degree methods.

Kier, it was said, was arrested for accosting a white woman in the lobby of a hotel where he was employed. Taken in an automobile on a lonely road, Kier was taken from the car and shot and killed, it was alleged. Detective Caudell, the indictment charges, fired two shots, one of which killed Kier.

The indictment alleged Chief Quigg conspired with the other officers to keep the Negro's death a secret, and also ordered that no entry of Kier's arrest be made on the police blotter. Later police reported that Kier's body was found on the roadside.

The fifth policeman, R. L. Wood, a detective, was held in jail charged with killing Victory W. Parnell, a carpenter, in November, 1925, without provocation, according to the indictment. Wood maintained he shot in self defense.

In returning the indictments, the grand jury declared it had discovered "an alliance between police and members of the underworld," and recommended complete reorganization of the police department and immediate removal of its present heads.

BUTLER'S BRIDE MAKES NEW WILL

NEW YORK, March 24.—Since she startled society by eloping with her butler March 5, Mrs. J. Pierre-Pont Edwards, Westchester County great-grandmother of seventy-two summers, drew a fresh will disposing of her \$5,000,000 fortune, it was said today.

The farthest her daughter, Mrs. Robert J. Turnbull, would go toward verification of the report was: "Of course, mother's marriage will affect the old will."

Before she became the bride of the forty-three-year-old butler, John Burden, former Scottish soldier, the dowager passed many hours in conference with her bankers.

Mrs. Turnbull, scoffing at rumors that her mother's alliance has caused a family tempest, said: "She phoned us and we had a long talk. She's very happy. When she told us so, we were happy, too."

The newlyweds are avoiding the curiosity of their neighbors by staying within the confines of the Edwards estate.

MARATHON RACERS PASS MOUNTAINS

CONTINENTAL DIVIDE, New Mexico, March 24.—C. C. Pyle's New York-bound "bunion derbyists" today, pushed over the nation's backbone here at an elevation of 7,265 feet, enroute to their twenty-second control at Thoreau, 32.3 miles from Gallup.

Arne Souminen, Detroit medic, leads in the grind, with an elapsed time of 121:50:05 for the 709.3 miles from Los Angeles to Gallup.

Nester Erickson, Fortchester, N. Y., is seventh in 126:11:47, while John Salo, Passaic, N. J., is ninth in 139:18:45.

Olli Waininen, New York, ran the 23.3 miles from Lupton, Ariz., to Gallup, New Mexico, yesterday in fourth place in 3:22:30 with an elapsed time of 163:57:32.

Louis Perella, Albany, N. Y., covered the Lupton-Gallup leg in 3:52:30 holding down twelfth place with an elapsed time of 148:19:25.

HELD FOR MURDER

Nellie Kimes, 18, figure in dance halls of oil boom towns and sister of Matt Kimes, sheik bandit who terrorized Oklahoma banks for several years, is being held in the Holdenville, Okla., jail awaiting trial on a murder charge. She has been accused, with Billie Roberts, 17, of St. Joseph, Mo., and Jack Palmer, 21, with the slaying of Frank Epperly, 51-year-old oil field farmer. Epperly, before his death, officers say, told a story of accompanying the trio to a canyon near the Saswaka oil field, where he was beaten and stabbed with mule shears.

GERMAN REPARATION PROBLEM EXPECTED TO OPEN NEXT YEAR

Bankers Will Play Important Part In Discussion

PARIS, March 24.—The turbulent German reparations question, which has troubled the powers for the past nine years, may be reopened next year, it was learned today. International bankers will play an important part in any conference which is held for the purpose of removing the question from the realm of politics. It had been hoped that the Dawes plan would achieve this end, but Germany is complaining that she will be unable to meet future payments under the Dawes plan and the issue continues to be a "football" of international politics.

There have been no decisive steps taken so far toward reopening the question, nor will European statesmen admit that an international conference will be held, but the belief is growing stronger in numerous quarters that a concerted effort will be made in 1929 to "settle" the German reparations issue once and for all.

It is suggested in unofficial circles that a conference will be called, following extensive diplomatic exchanges among the powers, with the following tentative program:

1.—Fix a definite amount of reparations that Germany must pay.

2.—Abolish the Dawes plan for another put forward by international bankers, if this second plan is approved by Germany.

3.—Issuance of a gigantic German loan, covered by mortgage bonds which would be sold through-out Europe and America.

Germany would thus have the responsibility for meeting reparations in the form of a loan, which would assuage German national pride and do away with foreign supervision such as is now exercised through the Dawes plan.

VALENTINO ESTATE ACCOUNT ATTACHED

LOS ANGELES, March 24.—Objections to the first annual accounting of the estate of the late Rudolph Valentino, motion picture actor, were on file in Superior Court here today.

The objections were brought by Alberto Guglielmi, Valentino's brother, who requested the court for a further accounting of the dead actor's estate, which, according to the inventory filed by Executor S. Geo. Ullman, amounts to \$287,462.

Contending that Ullman had not filed a complete inventory, Guglielmi objected to sixty-five items on the executor's list and asked the court to set aside an order allowing Ullman's claim of \$48,504.

FIVE INJURED IN WRECK OF TRAINS

HAGERSTOWN, Md., March 24.—Five men were injured early today when two freight trains on the Western Maryland Railroad were wrecked at Altenwald Cutoff, six miles north of Hagerstown.

An east bound double header freight bucked and a west-bound double plunged into it, according to reports.

WILL ASK ROCKEFELLER AND SCHWAB TO HELP DRAFT COAL LEGISLATION

Both Deny Their Companies Broke Wage Agreements

WASHINGTON, March 24.—John D. Rockefeller, Jr., and Charles M. Schwab may be called again before the senate coal committee at a proposed joint conference of operators and miners to draft regulatory legislation for the coal industry.

Committee members indicated today that the aid of the two industrial leaders would be enlisted in obtaining recommendations. The committee hopes to start working on a coal bill as soon as the present hearings are concluded, perhaps in two or three weeks.

Senator Gooding (R) of Idaho announced an effort would be made to push it through this session.

Both Rockefeller and Schwab agreed that some form of legislation would be helpful to the industry. The oil man declared consolidations were essential to eliminate overproduction and said this probably could be effected only through federal assistance.

Both denied emphatically union charges that companies in which federal assistance.

they are interested had broken wage agreements.

R. B. Mellon, brother of Secretary of the Treasury Mellon, said he voted as a director for the establishment of an open shop policy by the Pittsburgh Coal Company. The Mellons own a 25 per cent interest in the concern, amounting to about \$3,000,000.

The committee recessed over the week-end. At Rockefeller's request it will examine on Monday Consolidation Coal Company officials. Rockefeller asked that the company be given an opportunity to reply to union charges.

BOY SLAYS FATHER TO SAVE MOTHER'S LIFE; IS FREED

GOLDSBORO, N. C., March 24.—Toussled headed, 13-year-old Woodrow Thompson played in the front yard with his younger brother today while preparations were made for the burial of his father, who was slain last night when Woodrow emptied the load of a shotgun into his back.

Woodrow, gun in hand walked into the room where his father was threatening his mother.

"Pray your last time and make it snappy," Grover T. Thompson, snarled at his erring wife, who was on her knees pleading: "Don't do it, Grover—please," according to testimony given at the coroner's inquest.

Woodrow fired from close range and his father crumpled to the floor, instantly dead.

Coroner Tom R. Robinson made an investigation which resulted in a decision that the boy's action was justified.

NEW COMPROMISE FLOOD BILL BOTH PRAISED AND CRITICIZED

WASHINGTON, March 24.—The new compromise Mississippi flood control bill was praised and criticized by the various interested factions today.

While the measure was regarded as less satisfactory than the original Jones bill by the president, who has stood out for part payment by the states, it has placated the group which demanded tributary protection.

Senator Willis (R) of Ohio, who spoke for the tributary group, said the bill was the best way out of a bad situation, and house flood control leaders characterized this new measure as a "great step forward."

"I think the administrative features are not so good," Willis declared, but added, "there must be some bill, however, so I intend to support it in its main features." He said the plan provided "too much supervision." The bill will be introduced in the senate Monday by Senator Jones, (R) of Washington.

Although the bill was unanimously agreed upon yesterday, it was learned today that all members of the senate commerce committee reserved the right to object to different sections on the floor.

The new bill's principal departure from previous plans is in its provision for tributary waters, and elimination of the old section imposing payment of 1-3 of the cost of building the levees up to the 1914 level on the states. It also enlarges the membership of the governing board from three to five persons, adding one civilian engineer and the secretary of war to the list.

The jurisdiction of the governing board is extended to Cape Girardeau, Mo., instead of Cairo, Ill., under the compromise plan, but it provides that no work between Girardeau and Baton Rouge, La., shall be undertaken until the governing board decides whether controlled spillways or the fuse plug type are preferable. The new plan also provides that the government shall pay the states for any land it shall condemn, and, further, that this land when used shall be the property of the state in which it is located.

HEARST'S SON WILL WED IN CALIFORNIA

OAKLAND, Cal., March 24.—Miss Alma Walker, daughter of Mr. and Mrs. Clinton Walker of Piedmont, will become the bride of William Randolph Hearst, Jr., this afternoon. The ceremony is to take place at 4 o'clock at the late Episcopal Church in Piedmont.

Bishop Wesley Burns of the Methodist Episcopal Church will read the marriage service assisted by the Rev. Ernest F. W. Shaw.

George Hearst will be best man for his brother.

DOCTOR ARRESTED

DAYTON, O., March 24.—Henry M. Porter, negro doctor of this city, pleaded not guilty when arraigned on a charge of performing an illegal operation which resulted in the death of Mary Grace Hollis, 19 year old white girl, of Troy, Ohio. Porter was bound over to the grand jury following his arraignment. The girl died in Troy, March 12.

OFF FOR WICHITA

ST. LOUIS, March 24.—The New York American-Toledo Leadership plane, headed for Wichita, Kansas today on its 10,000 mile trans-continental tour. The plane arrived here at dusk yesterday.

OPERATORS NEEDED

WASHINGTON, March 24.—The United States is suffering a shortage of radio operators. The rapid expansion of commercial and military wireless communication systems during the last two years has overtaxed the nation's training facilities. The navy alone now has 334 vacancies in its normal peace-time force.

Direct high-frequency communication between Arlington Station here and naval vessels in Chinese waters is now regularly operative under favorable weather conditions.

BILL AGAINST PAID LOBBYISTS FACING STIFF OPPOSITION

Registration Plan May Survive House Attack

WASHINGTON, March 24.—The Caraway bill, which proposes to turn the glaring light of publicity on the lobbying activities that grip congress, in facing stiff opposition among house leaders.

Unless backers of the measure are able to force quick action the measure may be allowed to die in committee or brought out with most of its teeth drawn.

Rep. Hersey (R) of Maine, chairman of the house judiciary subcommittee which is handling the bill, declared today that there is no possibility of a favorable report on the bill as it passed the senate.

"The committee won't report anything more than a registration bill, if it reports that," Hersey asserted positively.

The Caraway bill provides not only for registration of all lobbyists under heavy penalty, but also would force them to disclose the fees that are paid for influencing legislation and expenses received.

Even stronger bills, introduced by house members, are before the committee. The authors, including Rep. La Guardia, (R) of New York, Senator (R) of Wisconsin, Griffith (D) of New York and Howard (D) of Nebraska have indicated a willingness to abandon their own proposals for the Caraway measure on the ground that it alone has a chance of being written into law at this session.

Hersey expressed opposition to the provisions of the Caraway bill requiring a disclosure of fees paid, asserting that lobbyists are performing a legitimate service in advocating legislation.

Sen. Caraway (D) of Arkansas, author of the lobbyists' restriction bill, declared his measure is not intended to abridge the right of petition or open advocacy of legislation before committees. It hits at lobbyists who work in the dark and in many cases obtain money on the fraudulent representation that they can influence votes, he said.

ARREST ALLEGED DOPE RING MEMBERS

CLEVELAND, March 24.—Two men, whose names were withheld, believed members of a Detroit "dope" ring, operating here and in other cities, were captured by police today in Rocky-River, Cleveland suburb, after an exciting two mile automobile chase.

A quantity of drugs was found in the automobile in which the two were riding, according to Rocky-River police, where the two men were held for questioning.

HAMMER SLAYER IS FACING CHARGE

COLUMBUS, O., March 24.—Arthur Battelle, 40, father of eight children, was to be arraigned for the first degree murder of his wife, Minnie, at Grove City, near here today, following his arrest here last night. Mrs. Battelle was fatally beaten with a hammer Thursday and her body nailed in a closet of their home.

Battelle was taken into custody when he called at a house of acquaintances and asked for food.

Marshall Puckett, 17 year old boarder at the Battelle home, over whom the Battelles are said to have quarrelled, and who was arrested after the tragedy, has been released.

Mrs. Eva Mundson, of Minneapolis, sister of the victim, was expected here today to claim the body.

MAN SUCCEUMS TO FUMES FROM STOVE

LANSING, Mich., March 24.—A leaky gas range is blamed today for the death of Morris Montgomery, insurance agent. Mrs. Montgomery and Jerden Raymond, 24 year old Michigan State College student, were overcome by the fumes, but are recovering. Raymond is from Lorain, Ohio.

Montgomery was a son of the late Robert Montgomery, former Supreme Court justice of Michigan and judge of the customs appeal court at Washington.

DANCER WINS LOST LOVE AWARD

Miss Gertrude McGushin, 22, sitting on the arm of the chair, is possessor of a promise verdict for \$20,000 given by a Cleveland, O., jury of seven women and five men against Duci Kerekjarto, theater and concert violinist. Gertrude and her sister, Dorothy, right above, vaudeville dancers and singers since they were 14, testified they were charmed when they heard Kerekjarto had married a wealthy Cleveland widow instead of Gertrude. "He followed me all over Canada and the United States," Gertrude related, "begging me to marry him and in Seattle I agreed. He made love to me madly, lavished presents on me, took me to his mother's house in San Francisco and introduced me to her as her next daughter." Gertrude sued for \$50,000.

LONDON DETECTIVE FORCE RE-DOUBLES DRIVE ON PLOTTERS

Scotland Yard Is Goaded By Irish Threats

LONDON, March 24.—Goaded on by several ominous warnings which threatened personal injury, Scotland Yard chiefs today intensified their investigation of the alleged plot of Irish Republicans to smuggle arms and munitions into the free state by way of London.

The numerous Scotland Yard detectives who participated in the roundup of the supposed Irish gunmen today received the following warning:

"The fight is on. Interfere at your own peril."

The warnings were in code and were signed "A Gunman."

Meanwhile two prisoners were being held as a result of the roundup and further arrests were predicted.

In a suburb of London, "a secret arsenal" was found. The "cache" contained a number of automatic pistols, rifles and a quantity of munitions.

It is believed that the warnings came from one of several hundred young Irish Republicans in London who are classified by the police as "gunmen" and who are said to hold secret meetings for the discussion of smuggling plans.

BRITAIN DISARMED

EDINBURGH, Scotland, March 24.—Great Britain has gone further in disarmament since the war than any other power, Sir Laming Worthington Evans, secretary of state for war, declared in a speech today.

home from Paris to promote anything. He came home to promote aviation. Well, that's something a fellow can promote without breaking the law. Right here, ladies and gentlemen, is where President Coolidge has kissed the Colonel if it were Paris."

At the White House grounds they point out the spot on which Lindy received the congressional medal of honor, and at the navy department, direct attention to a ten-foot glass-enclosed model of the cruiser Memphis which carried Lindy and the Spirit of St. Louis back from Europe.

At the Smithsonian institution, the spot is marked which is to be the permanent abode of the famous Lindbergh plane.

Rubberneck Bus Pilots Put Final Approval On Famous Flyer.

PENNSY WOULD BUY RAILROAD

WASHINGTON, March 24.—The Pennsylvania railroad today asked the Interstate Commerce Commission for authority to acquire the Columbus and Xenia railroad, a 52 mile line operating between those two Ohio cities. The Pennsylvania now operates the line under a lease. It would pay \$125 a share for 25,334 shares of the capital stock of the road now outstanding, with a par value of \$50 a share.

WOMEN LIVE LIKE ANIMALS IS FOUND

TOLEDO, O., March 24.—Two middle-aged sisters, believed deranged, and who are said to have lived virtually like animals during the last two or three years, are the subject of police investigation here.

The women, aged 40 and 55 years, were found in a house in the Collingwood district late yesterday by Policewoman Mary Young and Mrs. Emma Kemmerer, social service worker.

One sister was alone, and nude, in a room the floor of which was littered with milk bottles and decayed food. She was taken to the city prison for safe-keeping.

The other sister was strapped to a bed in an adjacent room. On the request of her aged parents, she was not taken to jail.

SOVIETS PREPARE MANSION FOR KING

MOSCOW, March 24.—"Shell House," the former town mansion of Savva Morozov, deceased multi-millionaire textile manufacturer, will be placed at the disposal of King Amanullah and Queen Souraya, of Afghanistan, when the royal couple reach Moscow on the final lap of their European journey. They are expected here in April or early in May.

Communists are much interested in the visit. It will be the first time a king, or any member of royalty, has set foot on Russian soil since the Red revolution upwards of ten years ago. All hatred of royalty and capitalism will be swallowed in the attempt to make Amanullah's stay as brilliant as that in the other capitals.

Both Deny Their Companies Broke Wage Agreements

WASHINGTON, March 24.—John D. Rockefeller, Jr., and Charles M. Schwab may be called again before the senate coal committee at a proposed joint conference of operators and miners to draft regulatory legislation for the coal industry.

Committee members indicated today that the aid of the two industrial leaders would be enlisted in obtaining recommendations. The committee hopes to start working on a coal bill as soon as the present hearings are concluded, perhaps in two or three weeks. Senator Gooding (R) of Idaho announced an effort would be made to push it through this session.

Both Rockefeller and Schwab agreed that some form of legislation would be helpful to the industry. The oil man declared consolidations were essential to eliminate over-production and said this probably could be effected only through federal assistance.

Both denied emphatically union charges that companies in which they are interested had broken wage agreements.

R. B. Mellon, brother of Secretary of the Treasury Mellon, said he voted as a director for the establishment of an open shop policy by the Pittsburgh Coal Company. The Mellons own a 25 per cent interest in the concern, amounting to about \$3,000,000.

The committee recessed over the week-end. At Rockefeller's request it will examine on Monday Consolidation Coal Company officials. Rockefeller asked that the company be given an opportunity to reply to union charges.

BOY SLAYS FATHER TO SAVE MOTHER'S LIFE; IS FREED

GOLDSBORO, N. C., March 24.—Tousled headed, 13-year-old Woodrow Thompson played in the front yard with his younger brother today while preparations were made for the burial of his father, who was slain last night when Woodrow emptied the load of a shotgun into his back.

Woodrow, gun in hand walked into the room where his father was threatening his mother.

"Pray your last time and make it snappy," Grover T. Thompson, snarled at his cowering wife, who was on her knees pleading: "Don't do it, Grover—please," according to testimony given at the coroner's inquest.

Woodrow fired from close range and his father crumpled to the floor, instantly dead.

Coroner Tom R. Robinson made an investigation which resulted in a decision that the boy's action was justified.

Sen. Willis (R) of Ohio, who spoke for the tributary group, said the bill was the best way out of a bad situation, and house flood control leaders characterized this new measure as a "great step forward."

"I think the administrative features are not so good," Willis declared, but added, "there must be some bill, however, so I intend to support it in its main features." He said the plan provided "too much supervision." The bill will be introduced in the senate Monday by Senator Jones (R) of Washington.

Although the bill was unanimously agreed upon yesterday, it was learned today that all members of the senate commerce committee reserved the right to object to different sections of the floor.

The new bill's principal departure from previous plans is in its provision for tributary waters, and elimination of the old section imposing payment of 1-3 of the cost of building the levees up to the 1914 level on the states. It also enlarges the membership of the governing board from three to five persons, adding one civilian engineer and the secretary of war to the list.

The jurisdiction of the governing board is extended to Cape Girardeau, Mo., instead of Cairo, Ill., under the compromise plan, but it provides that no work between Girardeau and Baton Rouge, La., shall be undertaken until the governing board decides whether controls, spillways or the fuse plug type are preferable. The new plan also provides that the government shall pay the states for any land it shall condemn, and, further, that this land when used shall be the property of the state in which it is located.

BILL AGAINST PAID LOBBYISTS FACING STIFF OPPOSITION

Registration Plan May Survive House Attack

WASHINGTON, March 24.—The Caraway bill, which proposes to turn the glaring light of publicity on the lobbying activities that compass congress, in facing stiff opposition among house leaders.

Unless backers of the measure are able to force quick action the measure may be allowed to die in committee or brought out with most of its teeth drawn.

Rep. Hersey (R) of Maine, chairman of the house judiciary subcommittee which is handling the bill, declared today that there is no possibility of a favorable report on the bill as it passed the senate.

"The committee won't report anything more than a registration bill, if it reports that," Hersey asserted positively.

The Caraway bill provides not only for registration of all lobbyists under heavy penalty, but also would force them to disclose the fees that are paid for influencing legislation and expenses received.

Even stronger bills, introduced by house members, are before the committee. The authors, including Rep. La Guardia (R) of New York, Senator (R) of Wisconsin, Griffith (D) of New York and Howard (D) of Nebraska have indicated a willingness to abandon their own proposals for the Caraway measure on the ground that it alone has a chance of being written into law at this session.

Hersey expressed opposition to the provisions of the Caraway bill requiring a disclosure of fees paid, asserting that lobbyists are performing a legitimate service in advocating or opposing legislation.

Sen. Caraway (D) of Arkansas, author of the lobbyists' restriction bill, declared his measure is not intended to abridge the right of petition or open advocacy of legislation before committees. It hits at lobbyists who work in the dark and in fraudulent representation that they can influence votes, he said.

The jurisdiction of the governing board is extended to Cape Girardeau, Mo., instead of Cairo, Ill., under the compromise plan, but it provides that no work between Girardeau and Baton Rouge, La., shall be undertaken until the governing board decides whether controls, spillways or the fuse plug type are preferable. OAKLAND, Cal., March 24.—Miss Alma Walker, daughter of Mr. and Mrs. Clinton Walker of Piedmont, will become the bride of William Randolph Hearst, Jr., this afternoon. The ceremony is to take place at 4 o'clock at the Interdenominational Church in Piedmont.

Bishop Wesley Burns of the Methodist Episcopal Church will read the marriage service assisted by the Rev. Ernest F. W. Shaw.

George Hearst will be best man for his brother.

DOCTOR ARRESTED

DAYTON, O., March 24.—Henry M. Porter, negro doctor of this city, pleaded not guilty when arraigned on a charge of performing an illegal operation which resulted in the death of Mary Grace Hollis, 19 year old white girl, of Troy, Ohio. Porter was bound over to the grand jury following his arraignment. The girl died in Troy, March 12.

OFF FOR WICHITA

ST. LOUIS, March 24.—The New York American-Toledo Leadership plane heads for Wichita, Kansas today on its 10,000 mile trans-continental tour. The plane arrived here at dusk yesterday.

MAN SUCCEUMS TO FUMES FROM STOVE

LANSING, Mich., March 24.—A leaky gas range is blamed today for the death of Morris Montgomery, insurance agent. Mrs. Montgomery and Jordan Raymond, 24 year old Michigan State College student, were overcome by the fumes, but are recovering. Raymond is from Lorain, Ohio.

Montgomery was a son of the late Robert Montgomery, former Supreme Court justice of Michigan and judge of the customs appeal court, at Washington.

BRITAIN DISARMED

EDINBURGH, Scotland, March 24.—Great Britain has gone further in disarming since the war than any other power. Sir Laming Worthington Evans, secretary of state for war, declared in a speech today.

LINDY'S FAME NOW OFFICIAL

Rubberneck Bus Pilots Put Final Approval On Famous Flyer.

WASHINGTON, March 24.—The ultimate mark of undying fame has been conferred upon Colonel Charles A. Lindbergh by the professional tourist guides of the capital.

With the coming of a new spring and its inevitable tide of sight-seers, the best steering wheel and megaphone men have re-mapped their routes to include the principal historical spots of the Lone Eagle's gala homecoming last summer. His name is immortalized now in the sacred litany of the wisecrack.

"Right here," says the new speed at the Washington monument grounds, "is where they had the speakers stand when Lindy came home from Paris to promote anything. He came home to promote aviation. Well, that's something a king, or any member of royalty, has set foot on Russian soil since the Red revolution upwards of ten years ago. All hatred of royalty and capitalism will be swallowed in the attempt to make Amanullah's stay as brilliant as that in the other capitals."

At the White House grounds they point out the spot on which Lindy received the congressional medal of honor, and at the navy department, direct attention to a ten-foot glass-encased model of the cruiser Memphis which carried Lindy and the Spirit of St. Louis back from Europe.

At the Smithsonian institution, the spot is marked which is to be the permanent abode of the famous Lindbergh plane.

DANCER WINS LOST LOVE AWARD

Miss Gertrude McGushin, 22, sitting on the arm of the chair, is possessor of a breach of promise verdict for \$20,000 given by a Cleveland, O., jury of seven women and five men against Duci Kerekjarto, theater and concert violinist. Gertrude and her sister, Dorothy, right above, vaudeville dancers and singers since they were 14, testified they were chagrined when they heard Kerekjarto had married a wealthy Cleveland widow instead of Gertrude. "He followed me all over Canada and the United States," Gertrude related, "begging me to marry him and in Seattle I agreed. He made love to me madly, lavished presents on me, took me to his mother's house in San Francisco and introduced me to her as her next daughter." Gertrude sued for \$50,000.

LONDON DETECTIVE FORCE RE-DOUBLES DRIVE ON PLOTTERS

Scotland Yard Is Goaded By Irish Threats

LONDON, March 24.—Goaded by several ominous warnings which threatened personal injury, Scotland Yard chiefs today intensified their investigation of the alleged plot of Irish Republicans to smuggle arms and munitions into the free state by way of London.

The numerous Scotland Yard detectives who participated in the roundup of the supposed Irish gunmen today received the following warning:

"The fight is on. Interfere at your own peril."

The warnings were in code and were signed "A Gunman."

Meanwhile two prisoners were being held as a result of the roundup and further arrests were predicted.

In a suburb of London, "a secret arsenal" was found. The "cache" contained a number of automatic pistols, rifles and a quantity of munitions.

It is believed that the warnings came from one of several hundred young Irish Republicans in London who are classified by the police as "gunmen" and who are said to hold secret meetings for the discussion of smuggling plans.

ARREST ALLEGED DOPE RING MEMBERS

CLEVELAND, March 24.—Two men, whose names were withheld, believed members of a Detroit "dope" ring, operating here and in other cities, were captured by police today in Rocky-River, Cleveland suburb, after an exciting two mile automobile chase.

A quantity of drugs was found in the automobile in which the two were riding, according to Rocky-River police, where the two men were held for questioning.

PENNSY WOULD BUY RAILROAD

WASHINGTON, March 24.—The Pennsylvania railroad today asked the Interstate Commerce Commission for authority to acquire the Columbus and Xenia railroad, a 52 mile line operating between those two Ohio cities. The Pennsylvania now operates the line under a lease. It would pay \$125 a share for 25,334 shares of the capital stock of the road now outstanding, with a par value of \$50 a share.

WOMEN LIVE LIKE ANIMALS IS FOUND

TOLEDO, O., March 24.—Two middle-aged sisters, believed deranged, and who are said to have lived virtually like animals during the last two or three years, are the subject of police investigation here.

The women, aged about 40 and 55 years, were found in a house in the Collingwood district late yesterday by Policemen Mary Young and Mrs. Emma Kemmerer, social service worker.

One sister was alone, and nude, in a room the floor of which was littered with milk bottles and decayed food. She was taken to the city prison for safe-keeping.

The other sister was strapped to a bed in an adjacent room. On the request of her aged parents, she was not taken to jail.

SOVIETS PREPARE MANSION FOR KING

MOSCOW, March 24.—"Shell House," the former town mansion of Savva Morozov, deceased multimillionaire textile manufacturer, will be placed at the disposal of King Amanullah and Queen Souraya of Afghanistan, when the royal couple reach Moscow on the final lap of their European journey. They are expected late in April or early in May.

Communists are much interested in the visit. It will be the first time a king, or any member of royalty, has set foot on Russian soil since the Red revolution upwards of ten years ago. All hatred of royalty and capitalism will be swallowed in the attempt to make Amanullah's stay as brilliant as that in the other capitals.

AUTO STALLS—DIES

BRYAN, O., March 24.—Joseph Hilbert, 50, is dead today following a grade crossing crash at Edgerton, near here. Hilbert's auto stalled on the New York Central railroad tracks, and he was attempting to push it from the right of way.

LEAGUE OF NATIONS EXPECTED TO PROBE SECOND VIOLATION

Jugoslav Officials Confiscate Train Sent To Hungary

GENEVA, March 24.—With the League of Nations already investigating one mysterious shipment of arms from Italy to Hungary, advances from Belgrade today indicated that the little entente will shortly demand an investigation into a second shipment that was discovered and confiscated by Jugoslav officials.

This second shipment, consisting of twenty-two railway cars of explosives, was consigned to Kikinda, on the Hungarian-Roumanian frontier. Jugoslav officials claim that it was intended for the Hungarian army.

The first shipment, which was discovered at St. Gotthard, on the Austro-Hungarian border, consisted of 971 cases of Remington-Union gun which was consigned as agricultural implements.

After its discovery, and after the first shipment was confiscated, a investigation by the League of Nations was instituted into the second shipment.

When the little entente's probe came before the League Council in its latest meeting a Commission was appointed to investigate and report at the next meeting.

FARMERS OF GREENE COUNTY WILL FAVOR WILLIS CANDIDACY

Organization of a Willis-For-President Club in Greene County soon is promised by farmers who have interested themselves in the campaign in favor of the senator's candidacy.

First indications of the activities in behalf of Willis came to light this week when farmers gave their signatures to a petition extolling Willis for standing for equal rights of all classes and for agricultural prosperity and charging that Herbert Hoover has no record that would appeal to the American farmer.

The club to work for Willis will be made-up of farmers and city residents. W. B. Bryson, former representative and one of his backers announced. Farmers who signed the Willis petition follow:

Thomas Ankeney, W. B. Bryson, E. Meredith, S. H. Shawhan, J. B. Conklin, E. T. Ballard, W. W. Anderson, J. B. Ankeney, Bertha B. Shawhan, O. D. Tobias, C. D. Miers, E. W. Painter, W. C. Miller, James Patterson, C. A. Jacobs, Frank Larker, F. E. Lewis.

FORMER XENIAN IS GIVEN HONORS

George W. B. Conrad, Cincinnati formerly Pennsylvania Railroad attorney here, has been appointed to the executive board of the Archdiocesan Union of the Holy Name Society, a Catholic organization, in Cincinnati.

Phil Herget, member of the board, resigned to make a place for Mr. Conrad after the latter spoke at a quarterly meeting on the national convention of colored Catholics to be held in Cincinnati next September. Mr. Conrad was also recently honored by being named to the board of management of the Cincinnati and Hamilton County Y. M. C. A. as a representative of the Ninth St. Branch. The branch is fostering a movement for a "Rosenwald Day" to honor Julius Rosenwald, Chicago philanthropist, for his assistance of Y. M. C. A. and Y. W. C. A. organizations for Negroes in eighteen cities.

RELEASE SUSPECT IN ROBBERY CASE

A suspect arrested Friday by O. H. Cornwell, county road patrolman and Deputy Sheriff George Sugen in connection with a robbery of a pool and billiard parlor operated by High Marshall on the Dayton-Xenia Pike opposite the Beaver Creek High School, Thursday night, was released from custody Friday.

Fingerprints of the suspect failed to tally with those under investigation, Deputy Sheriff Sugen said.

Only a small amount of loot was obtained by the thieves. A slot machine was broken open and its contents, consisting of several dollars, was removed. A few packages of cigarettes were also stolen.

"TYRANNY OF PAIN" REVEALED IN SERMON

The physical suffering and anguish that infests the world was described as a "tyranny of pain" by the Rev. Lawrence Yeske, Dayton, in his Lenten sermon at St. Bridget's Catholic Church Friday night.

"This tyranny of pain serves to purify and ennoble our character," the Rev. Father Yeske said. He pointed out that pain and suffering on earth smoothes the way for the rewards of eternal life in heaven.

CONVICTED LIQUOR OFFENDER MAY GET DOUBTFUL HONOR

Donald Perry, 26, colored, proprietor of a pool room at Yellow Springs, was fined \$400 and costs for possessing liquor by Probate Judge S. C. Wright Saturday morning. He pleaded guilty.

Perry was ordered committed to the Cincinnati Workhouse if the fine and costs are not paid.

In the event of non-payment, Perry will be the first prisoner sent to the Cincinnati institution from Greene County.

County Commissioners recently contracted with the Cincinnati Workhouse for confinement of prisoners convicted of misdemeanors in Greene County.

The negro was taken into custody following a raid conducted early Saturday morning by Sheriff Ohmer Tate, assisted by O. H. Cornwell, county road patrolman. The raiding officers confiscated about a gallon of liquor, they reported.

FARMERS OF GREENE COUNTY WILL FAVOR WILLIS CANDIDACY

Organization of a Willis-Pur President Club in Greene County soon is promised by farmers who have interested themselves in the campaign in favor of the senator's candidacy.

First indications of the activities in behalf of Willis came to light this week when farmers gave their signatures to a petition extolling Willis for standing for equal rights of all classes and for agricultural prosperity and charging that Herbert Hoover has no record that would appeal to the American farmer.

The club to work for Willis will be made up of farmers and city residents. W. B. Bryson, former representative and one of his backers announced. Farmers who signed the Willis petition follow:

Horace Ankeney, W. B. Bryson, E. Meredith, S. H. Shawhan, J. B. Conklin, E. T. Ballard, W. W. Anderson, J. B. Ankeney, Bertha B. Shawhan, O. D. Tobias, C. D. Miers, E. W. Painter, W. C. Miller, James Patterson, C. A. Jacobs, Frank Lacker, F. E. Lewis.

Morton Dallas, Clyde Northrup, A. W. Page, L. H. Jones, A. W. Adams, H. Cory, George Stark, Harry Shank, George Hays, Harry Saffert, Andrew M. Bryan, R. L. Tobias, Ernest Hutchison, W. B. Ferguson, Robert Ferguson, Graham Bryson, C. E. Beatty, Kenneth Hutchison, William Hardman.

David W. On, Ralph Ferguson, Ray Wells, Frank Collins, J. R. Rife, J. Robert Bryson, J. E. Kline, William Kyle, Frank Eagle, Harvey Collins and Ollie Spahr.

FORMER XENIAN IS GIVEN HONORS

George W. B. Conrad, Cincinnati formerly Pennsylvania Railroad attorney here, has been appointed to the executive board of the Archdiocesan Union of the Holy Name Society, a Catholic organization, in Cincinnati.

Phil Herget, member of the board, resigned to make a place for Mr. Conrad after the latter spoke at a quarterly meeting on the national convention of colored Catholics to be held in Cincinnati next September. Mr. Conrad was also recently honored by being named to the board of management of the Cincinnati and Hamilton County Y. M. C. A. as a representative of the Ninth St. Branch. The branch is fostering a movement for a "Rosenwald Day" to honor Julius Rosenwald, Chicago philanthropist, for his assistance of Y. M. C. A. and Y. W. C. A. organizations for Negroes in eighteen cities.

RELEASE SUSPECT IN ROBBERY CASE

A suspect arrested Friday by O. H. Cornwell, county road patrolman and Deputy Sheriff George Sugden in connection with a robbery of a pool and billiard parlor operated by Hugh Marshall on the Dayton-Xenia Pike opposite the Beaverbrook High School, Thursday night, was released from custody Friday.

Fingerprints of the suspect failed to tally with those under investigation, Deputy Sheriff Sugden said.

Only a small amount of loot was obtained by the thieves. A slot machine was broken open and its contents, consisting of several dollars, was removed. A few packages of cigarettes were also stolen.

"TYRANNY OF PAIN" REVEALED IN SERMON

The physical suffering and anguish that infests the world was described as a "tyranny of pain" by the Rev. Lawrence Yeske, Dayton, in his Lenten sermon at St. Brigid's Catholic Church Friday night.

"This tyranny of pain serves to purify and ennoble our character," the Rev. Father Yeske said. "He pointed out that pain and suffering on earth smooths the way for the rewards of eternal life in heaven."

Memorial of Love

As a tribute to Mrs. Emmeline B. Wells, Mormon pioneer, this bust, by Cyrus E. Dallin, inset, was unveiled at Salt Lake City. She was a leader in the woman suffrage cause and mothered the Mormons in their hardships endured while crossing the plains from Nauvoo, Ill., to Salt Lake City.

MOTHER CONFESSES—MAY FREE SON

Who killed Bertha Katz? That is the question once settled in court trial that may have to be reopened. Morris Reiser (below), now in Sing Sing prison serving 30 years to life was convicted in 1922 of the murder of his aunt, Bertha Katz (right). In a sworn confession just made, the prisoner's mother, Mrs. Minnie Reiser (left), declares that she and not her son was the real murderer.

CONVICTED LIQUOR OFFENDER MAY GET DOUBTFUL HONOR

Donald Perry, 26, colored, proprietor of a pool room at Yellow Springs, was fined \$400 and costs for possessing liquor by Probate Judge S. C. Wright Saturday morning. He pleaded guilty.

Perry was ordered committed to the Cincinnati Workhouse if the fine and costs are not paid. In the event of non-payment, Perry will be the first prisoner sent to the Cincinnati institution from Greene County.

County Commissioners recently contracted with the Cincinnati Workhouse for confinement of prisoners convicted of misdemeanors in Greene County.

The negro was taken into custody following a raid conducted early Saturday morning by Sheriff Ohmer Tate, assisted by O. H. Cornwell, county road patrolman. The raiding officers confiscated about a gallon of liquor, they reported.

WILBERFORCE

Miss Louise Walton, director of the Domestic Aid Department and

her assistants, Mrs. Mary Reed and Mrs. M. E. Brown have moved into the new Economic Building where they will hold their classes. The formal opening will take place later.

Dean George F. Woodson of Payne Theological Seminary has announced his schedule for four-teen seniors to deliver their graduation sermon. Rev. Douglas Robinson preached the first sermon Sunday afternoon at 4 o'clock in the chapel of the seminary.

Miss Mildred Morgan of Columbus, who had to discontinue her course in the School of Commerce due to ill health, has returned and taken up her work again.

The regular monthly vesper service will be held Sunday afternoon at 3 o'clock in the Jones Auditorium, Shorter Hall. The speaker is a very prominent layman of the A. M. E. Church, Mr. Nimrod Allen, a former graduate of the college department and now engaged in social settlement work in Columbus.

The local branches of the Y. M. C. A. and Y. W. C. A. held a joint meeting Sunday evening in Gallo-way Auditorium. The topic for discussion was, "What is my position on the Problem of Race Relations?"

Mrs. Gertrude Holland was in London Sunday and assisted Rev. Tate who has been holding a series of revival meetings in that city. Rev. L. C. Ridley was in Springfield Sunday with the Rev. Charles Spivey and delivered two addresses before the Men's Club in the North Street Church. In the absence of Rev. Ridley Dr. H. H. Summers

took charge of the Sunday morning service in Trinity A. M. E. Church.

Misses Lethea Washington and Mollie Dunlap who are taking work in the Ohio State University, came down and spent the week-end with Misses L. C. Cook and Anna O'H. Williamson.

Mr. and Mrs. W. P. Welch and Miss Jessie H. A. Smith motored to Columbus Sunday and spent the day with friends.

Wilberforce University, like other educational institutions, has produced a boxer by the name of Jack Slater who stands six feet and some inches. The Dayton Herald says that Jim Stone went down for a count of nine in his fight against Jack Slater of Wilberforce University and the knock-down lost him a close verdict.

Miss L. Jason of Porto Rico, spoke to the Christian Endeavor Society, Sunday evening, and gave an

interesting sketch of Porto Rico life.

Mrs. George Henry Crayton, nee Miss Ethelene Smith, former instructor in English, Academic Department, is visiting her sister, Miss Louise Smith in Shorter Hall. Prof. Byron Chandler of the Inter-Collegiate Debating Committee, has completed arrangements for holding a debate between the debating team of Fisk University, Nashville, Tenn. and the Wilberforce team, Monday evening, April 2, in the Jones Auditorium. The subject, "Resolved, that the Reed-Curtis Educational Bill should be adopted." The home team will take the affirmative and will be represented by Messrs. Ragland Reid, Walter Harris and Harry Roberts.

Little Squire Walter Heard was knocked down by an automobile driven by Dr. Geo. Henderson, in front of Sunday Hall Thursday at noon, while going home from the

primary school. He was not seriously injured but his body was severely bruised. The attending physician thinks he will be able to enter school the first of the week.

Spring has arrived and the young men are out on the athletic field practicing to make the first team in baseball. The schedule for the season has not as yet been arranged but will probably be discussed at the Athletic Council Friday evening.

DISTURBING COUGH STOPPED

FIRST U. P. SOCIETY MEETS FRIDAY AFTERNOON.

The delightful weather of Friday had the effect of bringing together an unusually large number of the members of the Woman's Missionary Society, First U. P. Church, who were cordially received in the afternoon by Mrs. A. M. Patterson, N. King St.

Mrs. E. C. Moorman presided and the devotions were in charge of Mrs. J. G. Dixon. The program was introduced with a monologue in which she gave the story of "Rachanny" a little girl of the mountains who learned the great truth of life through the teaching of Miss Lucy of the Mission School.

The closing chapters of the study book of the year "A Straight Way Through Tomorrow" was reviewed by Mrs. J. P. White. As this was the last meeting of the present administration, a retrospect followed, led by Mrs. A. S. Frazer, who, in a few choice words complimented the work of the officers, particularly Mrs. E. C. Moorman, who had presided three years consecutively without missing a meeting. She received hearty applause. Miss Mary Turner and Mrs. Anna Morris, had not missed a meeting during the past year and Mrs. E. H. Carruthers as press correspondent, had not missed a report for six months.

Each of these received a gift from the society. After adopting the new study book "New Paths from Old Trails" the meeting adjourned with the Lord's Prayer. A social hour was enjoyed and refreshments served by the hostesses, Mrs. J. C. Marshall and the executive committee, Mrs. E. C. Moorman and Mrs. J. P. Little poured the tea.

Mr. and Mrs. Robert McIntire, Allison Ave., are receiving a visit from Mr. McIntire's mother, Mrs. H. H. McIntire, Clearwater, Fla. She will remain for an extended visit.

Attorney F. L. Johnson spent Friday in Columbus, on business.

QUETLY MARRIED SATURDAY MORNING

Miss Margaret Howard and Mr. Lee H. DeHaven, both of Osborn, were married at the First M. E. parsonage, this city, the Rev. W. N. Shank officiating, Saturday morning at 10:30 o'clock.

The couple was unattended. Mr. and Mrs. DeHaven will reside for the present at Osborn.

A number of Xenians attended the concert of Rosa Ponselle in Dayton, Friday night. The local patrons included: Mr. and Mrs. J. D. Steele, the Misses Margaret and Florence Steele, Mrs. W. R. Harner, Mrs. Mary M. Meredith, Mrs. Albee Ruthrauff, Mr. and Mrs. C. L. test their sons and daughters in the campaign, Mr. Beard has this to say:—

"The reason I advocate woodcraft, outdoor work and play for children is because such occupations sharpen their wits, key up their fine senses, make the young folks alert, observant and self-reliant.

"These qualities are dangerous to acquire by experience in city life, for after a boy or girl is hit by an automobile or run over by a motor truck the story is usually finished.

Asks Conservation "Therefore, I am heartily in sympathy with any method of training which will tend to lessen the really terrible danger young people run when playing even on the sidewalks and when crossing the streets of the cities of today.

"The conservation of our young people is the conservation of the nation. Success to the 'Just Kids' Safety Club!'"

PENNSYLVANIA RAILROAD WANTS TO BUY ROAD NOW UNDER LEASE

Authority to acquire The Columbus and Xenia Railroad, a fifty-two mile line now operated between the two cities under a lease, is sought in an application filed by the Pennsylvania Railroad Co., with the Interstate Commerce Commission at Columbus Saturday.

The Pennsylvania would pay \$125 a share for 26,334 shares of the capital stock of the road now outstanding, with a par value of \$50 a share. This indicates the line has increased in value from \$1,266,700 to \$1,365,750.

The Columbus and Xenia Railroad, chartered March 12, 1844 was ready for operation in February, 1850.

Originally, there were three roads which are now combined as a part of the Pennsylvania lines: 1.—the road from Cincinnati to Springfield, via Xenia, originally the Little Miami Railroad; 2.—the Columbus and Xenia road; 3.—the Dayton and Western Road.

The first railroad of the county, the Little Miami, dates its inception from an act of General Assembly of Ohio, approved March 11, 1836. Its charter called for the construction and maintenance of a railroad from Cincinnati to Springfield, a distance of eighty-four miles.

It was this road which reached Xenia nine years later, the road that now passes through the city along Detroit St. Work was not begun on the road until 1837 and it was not until December, 1842 that the road was ready for traffic between Cincinnati and Milford, a small town a few miles northeast of Cincinnati. By August, 1845, the line was opened between Cincinnati and Xenia. Just a year later, the road was opened throughout its entire length.

The next step in the history of the Little Miami and Columbus and Xenia lines was taken November 30, 1853, when the two roads were consolidated.

To add to the complicated railroad history of Greene County about this time, a third road, which had been in the process of construction since 1850, was opened for business. This third line was known as the Dayton and Western, and in 1853 the road between Dayton and Xenia was ready for operation.

But the '50s saw still another railroad running through Greene County, and while it was not completed for nearly a score of years afterward, yet it figured in the railroad mergers of the '90s and '00s as they affected Greene County.

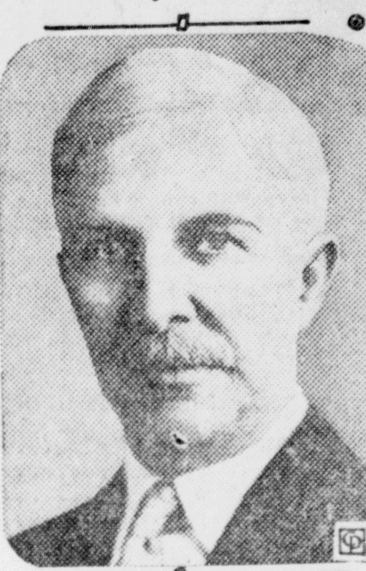

Although it was considered strange that a man with money would build two railroads between cities sixteen miles apart, as are Dayton and Xenia, nevertheless, there were two steam roads projected between these two cities about the same time—1850.

A company was organized in the fore part of the '50s to build a road between Dayton and Bellevue, a town on the Ohio River in Washington County. This company, known as the Dayton, Xenia and Belvoir Railroad Co., commenced grading at once through Greene County.

Some of the townships of the county, particularly Silvercreek, voted to bond themselves to the extent of \$10,000 to help matters along. Nine thousand dollars was actually paid over to the company before it was found the company was about to suspend operations. The road was graded from Dayton through Xenia and as far east as Jamestown in the '50s and stopped—stopped for about twenty years.

After the consolidation of the Little Miami and Columbus and Xenia roads in 1853 and completion of the Dayton and Western between Dayton and Xenia the same year, another chapter in the county's railroad history was written January 1, 1865, when the two merged roads entered into a joint

BETTER CAR
OLDSMOBILE SIX

"The Fine Car of Low Price," this title of the new Oldsmobile Six is earned by the most imposing array of quality features ever embodied in any car priced "for the American family." Engine features—body features—performance features—equipment features—so many features new and different and so much ahead of any other car at anywhere near the same price that comparison only brings out its superior features.

The body by Fisher with wide doors and distinctive panel moldings; the radiator with rounded shell, the hood with narrow saddle boldly in contrasting colors; the handsome broad bar bumpers—all are newly designed—all are a part of the irresistible grace and charm of this car.

You enjoy in its spirited six-cylinder, high compression performance, from any standard grade of fuel; full 55 horse power—smooth, quiet, responsive; acceleration from 5 to 25 miles an hour in 8 1-2 seconds with steady, stageless pick-up like an electric motor. You sense the superb riding ease of a chassis silenced at eight points, fully equipped with four hydraulic shock absorbers, scientifically balanced for the road.

Drive it—test for yourself its riding smoothness—its handling ease—its high compression performance. You will agree with the critics that here is a car two years ahead—and you will agree that you can buy a bigger car—but you cannot buy a better car.

DRIVE FOR LEGION

PARIS, March 24.—A drive is under way here today to raise at least \$300,000 for a home for the Paris branch of the American Legion. It has the support of Ambassador Herriek and Gen. Pershing.

\$1,000 for Haircut

Having a haircut on his twenty-first birthday, has brought Joe Kametz, of Albion, Ia., \$1,000. When Kametz was a small boy he possessed what his family termed beautiful hair. His brother offered him \$1,000 if he remained away from a barber shop until 21. Joe did and now is possessed of the thousand. He is shown, above, after his first trip to the barber shop, and below, as he appeared with long tresses.

National Drive to Teach Children
Safety First Making Fast Progress

REMEMBER TO LOOK UP AN' DOWN BEFORE YOU CROSS THE STREET.

Dan Beard, beloved leader of the Boy Scouts of America, seen with the son and daughter of "Ad" Carter, famous cartoonist, pictured at the right. The men have joined hands in organizing a national "Just Kids' Safety Club."

"REMEMBER to look up an' down before you cross the street." That's the slogan adopted by a new organization founded by "Ad" Carter, New York cartoonist, who specializes in the doings of kiddies, and backed up by Dan Beard, a leading factor in the affairs of the Boy Scouts of America.

Together they are enrolling thousands of boys and girls in the "Just Kids' Safety Club, and the movement is spreading like wildfire all over the country, because—

It's the first big concerted effort made by anyone to preach the gospel of safety first to the kiddies—

To make a determined battle upon the thousands of annual fatalities among children in accidents.

Cartoonist Carter knows boys and

girls as few humans know them. His work shows that. He has a following among the youngsters that can't even be estimated throughout the country.

Big Death Toll
And the reason for his singular success is that he not only understands them, but is able to see things from their angle.

Loving children as he does, Carter often pondered over the question of cutting down the appalling death toll. And finally he evolved the idea of enrolling as many youngsters as possible into a safety first organization, and teaching them a few simple things that would save them from being accident victims.

Dan Beard at once saw the immense good that such propaganda could effect and wholeheartedly gave his efforts to the movement.

In discussing the situation and making a plea for parents to inter-

est their sons and daughters in the campaign, Mr. Beard has this to say:—

"The reason I advocate woodcraft, outdoor work and play for children is because such occupations sharpen their wits, key up their fine senses, make the young folks alert, observant and self-reliant.

"These qualities are dangerous to acquire by experience in city life, for after a boy or girl is hit by an automobile or run over by a motor truck the story is usually finished.

Asks Conservation
"Therefore, I am heartily in sympathy with any method of training which will tend to lessen the really terrible danger young people run when playing even on the sidewalks and when crossing the streets of the cities of today.

"The conservation of our young people is the conservation of the nation. Success to the 'Just Kids' Safety Club!"

SCHLESINGER TO
HEAD COMMITTEE

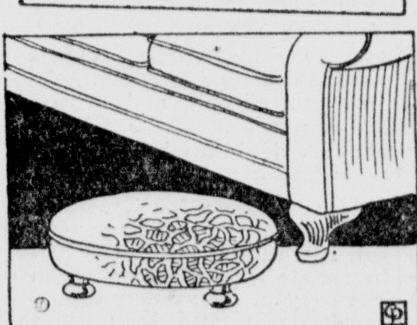

G. F. Schlesinger, Columbus, former Xenian, director of highways for the State of Ohio, was elected chairman of the standing committee for simplified practice recommendations number one paving brick, at the annual meeting this week at the Department of Commerce, Washington, D. C.

The conference reaffirmed without change the existing practice recommendation on paving brick for another year. This recommendation which eliminated 93 per cent of the varieties of the commodity, was promulgated originally in 1921. The committee reported that the average adherence to the recommendation was 79.6 per cent in 1927.

PENNSYLVANIA RAILROAD WANTS
TO BUY ROAD NOW UNDER LEASE

Authority to acquire The Columbus and Xenia Railroad, a fifty-two mile line now operated between the two cities under a lease, is sought in an application filed by the Pennsylvania Railroad Co., with the Interstate Commerce Commission at Columbus Saturday.

The Pennsylvania would pay \$125 a share for 26,334 shares of the capital stock of the road now outstanding, with a par value of \$50 a share. This indicates the line has increased in value from \$1,266,700 to \$1,366,750.

The Columbus and Xenia Railroad, chartered March 12, 1844 was ready for operation in February, 1850.

Originally, there were three roads which are now combined as a part of the Pennsylvania lines: 1—the road from Cincinnati to Springfield via Xenia, originally the Little Miami Railroad; 2—the Columbus and Xenia road; 3—the Dayton and Western Road.

The first railroad of the county, the Little Miami, dates its inception from an act of General Assembly of Ohio, approved March 11, 1836. Its charter called for the construction and maintenance of a railroad from Cincinnati to Springfield, a distance of eighty-four miles.

It was this road which reached Xenia nine years later, the road that now passes through the city along Detroit St. Work was not begun on the road until 1837 and it was not until December, 1842 that the road was ready for traffic between Cincinnati and Milford, a small town a few miles northeast of Cincinnati. By August, 1845, the line was opened between Cincinnati and Xenia. Just a year later, the road was opened throughout its entire length.

The next step in the history of the Little Miami and Columbus and Xenia lines was taken November 30, 1853, when the two roads were consolidated.

To add to the complicated railroad history of Greene County about this time, a third road, which had been in the process of construction since 1851, was opened for business. This third line was known as the Dayton and Western, and in 1853 the road between Dayton and Xenia was ready for operation.

But the '50s saw still another railroad running through Greene County, and while it was not completed for nearly a score of years afterward, yet it figured in the railroad mergers of the '50s and '60s as they affected Greene County.

Although it was considered strange that men with money would build two railroads between cities sixteen miles apart, as are Dayton and Xenia, nevertheless, there were two steam roads projected between these two cities about the same time—1850.

A company was organized in the form of the '50s to build a road between Dayton and Belpre, a town on the Ohio River in Washington County. This company, known as the Dayton, Xenia and Belpre Railroad Co., commenced grading at once through Greene County.

Some of the townships of the county, particularly Silvercreek, voted to bond themselves to the extent of \$10,000 to help matters along. Nine thousand dollars was actually paid over to the company before it was found the company was about to suspend operations. The road was graded from Dayton through Xenia and as far east as Jamestown in the '50s and stopped—stopped for about twenty years.

After the consolidation of the Little Miami and Columbus and Xenia roads in 1853 and completion of the Dayton and Western between Dayton and Xenia the same year, another chapter in the county's railroad history was written January 1, 1865, when the two merged roads entered into a joint

lease of the Dayton and Western. On February 4, a month later, these same two companies bought the Dayton, Xenia and Belpre Railroad. This somewhat complicated merger was dissolved November 30, 1869 and a new contract was negotiated.

The new agreement provided that the Little Miami should lease the Columbus and Xenia Railroad for ninety-nine years, with the privilege of renewal in 1868.

Within a month from the time this contract was drawn, the Little Miami road, January 1, 1870 entered into a lease with the Pittsburgh, Cincinnati and St. Louis Railway Co., whereby it leased to this company, for a period of ninety-nine years, renewable forever, its road, all rolling stock and equipment of all kind, together with its leased roads, the branch between Columbus and Xenia and the one between Dayton and Xenia, and it is this company which is today a part of the Pennsylvania system.

When the first railroads were being built through the state, practically every county in Ohio through which a railroad passed, bought railroad stock and bonds.

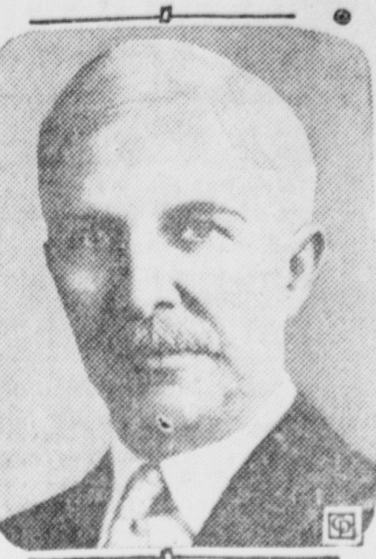

Greene County was one of the number to indulge in the luxury of railroad stock and bonds and made a large profit on the venture. For several years the county paid much of its current indebtedness with the dividends from its railroad stock and bonds. The old iron fence which ran around the Court House, for instance, paid for with railroad dividends. One of the county jails was paid for entirely with railroad dividends, and scores of other needed improvements were made possible because of the big dividends which the county enjoyed.

A complete tabulation of the railroad stock and bonds owned by the county in 1858 in the Columbus and Xenia Railroad, is listed as follows: all at \$50 par value; 1,000 shares valued at \$50,000; twenty-eight shares worth \$1,400, and fifty-one shares, worth \$2,550, a total of \$53,950. The county also owned \$3,600 worth of bonds issued by the Columbus and Xenia Road.

FIX HEARING FOR
XENIA TRUCKMEN

COLUMBUS, O., March 24.—The State Utilities Commission acting upon the application of various Xenia truckmen, arranged for a hearing to be held May 6, next, relative to its order, issued February 23, last, granting an irregular trucking certificate to William B. Johnson, Xenia.

He Pays to Work

County Recorder L. Frank Baker, of Washington, Pa., not only doesn't get any salary, but he actually pays for the privilege of holding office. By law he is entitled to \$5,000 a year, provided the office "earns" as much as that. Last year office expenses were \$1,000 more than the receipts and Baker had to make up the deficit. He won't get a refund unless the legislature changes the law.

BETTER CAR
OLDSMOBILE SIX

"The Fine Car of Low Price," this title of the new Oldsmobile Six is earned by the most imposing array of quality features ever embodied in any car priced "for the American family." Engine features—body features—performance features—equipment features—so many features new and different and so much ahead of any other car at anywhere near the same price that comparison only brings out its superior features.

The body by Fisher with wide doors and distinctive panel moldings; the radiator with rounded shell, the hood with narrow saddle boldly in contrasting colors; the handsome broad bar bumpers—all are new designs—all are a part of the irresistible grace and charm of this car.

You enjoy in its spirited six-cylinder, high compression performance, from any standard grade of fuel; full 55 horse power—smooth, quiet, responsive; acceleration from 5 to 25 miles an hour in 8 1/2 seconds with steady, stageless pick-up like an electric motor. You sense the superb riding ease of a chassis silenced at eight points, fully equipped with four hydraulic shock absorbers, scientifically balanced for the road.

Drive it—test for yourself its riding smoothness—its handling ease—its high compression performance. You will agree with the critics that here is a car two years ahead—and you will agree that you can buy a bigger car—but you cannot buy a better car.

BIBLE THOUGHT FOR TODAY

WISDOM GIVEN — The Lord giveth wisdom: out of his mouth cometh knowledge and understanding.—Prov. 2:6.

CLOGGED HIGHWAYS

It is contended that a rule against slow driving should be enforced to prevent congestion of traffic. On a narrow road the slow drivers clog the lane. The answer is, there should be no narrow roads.

Road builders thought if they made the road hard and smooth and well graded, they had laid down an automobile road. They had not. They had built half a road. It ought not to be necessary to compel a river to travel more rapidly than he cares to. Leisurely-minded people ought not to find that the age cannot tolerate their habits. There is much to commend them. They are probably more solid and substantial than habits of going nowhere at high speed.

The narrow road is just next to no road at all. Four lines of travel are required for days in which every other person drives a car.

The slogan "good roads is not enough. Two more words must be added, "wider roads."

CONVINCING

(The following is taken from the Toronto Globe)

The Globe has received a letter from a reader who, seemingly, does not agree with this paper's temperance policy, but his argument as set forth on his own typewriter is so convincing that it is deserving of more than ordinary prominence. The letter follows:

To the Editor of The Globe: I have been presented with a fine bottle of Scotch whisky, and it is before me as I sit at my typewriter and indite this letter to you. What right has any form or law to make me a criminal if I partake of this gift as it was intended that I do by the giver?

I have just tasted of this bottle of liquor, I will confide to you, and I cannot see where or how I am invading the rights of any other person on earth I cannot feel, Mr. Editor, that I have wronged the community or added to the lawlessness of general society in doing so. I like a little drink, and now I have taken a third, or maybe it is a fourth, and I am more than ever convinced that any man that doesn't id a big idiot. You say that this evabion of the law is producing a stable of affairs in our Great mand Gkourious Country. You are wrong.

I wantst to say to yo utah this socteh is all right A lot of it would't do us harm. When we ened stimulaney we need it.

My grandfather was brought up on rum. They had it in the house all the time. They draaj it freely and even the ministwo drink it when he came to our house. It's pretty kind of a cuntry when a grandson is better then his grandfather. I can drink this sort of Seutag all day and not be no worse a citizen than I was before. I could drink this whole wugot andneger wuiber en etelash.

TRAMPS

A few years ago tramps and flitting toilers, traveling on "blind baggage" and side-door Pullman's outnumbered train crews. Today they are few. Perhaps in this day of softness and luxury tramps have caught the spirit of ease and refuse to travel in the plain, old-fashioned way.

DRAMATIC APPEAL

The woman claiming to be the daughter of the late czar of Russia appeals to popular imagination. Such cases always do. She says she escaped from the rest of the family were killed by the bolsheviks. The fact she speaks German and not Russian doesn't bother her. She says she forgot her native language. She says a Red bayonet knocked her teeth out. A Berlin dentist says he pulled them out. Well, her story may yet be true or it may not. We jump at the spectacular, the unusual, the bizarre, the dramatic. It all helps to make the world an interesting place in which to live.

LINDY'S PLANE

Lindbergh's airplane, which has carried him safely through many climes for 40,000 miles, will soon come to rest in the Smithsonian Institution in Washington. Generations to come will gaze on the "Spirit of St. Louis" and wonder and admire. But the spirit of Lindbergh, caught by boys and young men all over this land, will be handed down to uncounted generations. That is a far bigger thing than a monoplane in a museum.

BY ABSORPTION

Education experts say pupils learn art by absorption. Artistic surroundings are exceedingly important. Watch your home—the pictures on the wall, the rugs, and chairs. Bring beauty into the home to the limit of what you can afford. There is where taste in art is learned.

PREPAREDNESS

The wise Queen Wilhelmina of Holland sees to it that her daughter studies law, so she can make a living at that profession if anything happens to the king and queen business in Europe. Thrones have proved shaky of late years. Wilhelmina believes in preparedness. But the same good sense she show in this case has helped make her a wise and popular sovereign. Her throne is not tottering.

AGE AND SPIRIT

Given good health, there is no age. There is only spirit and the change of spirit. Mrs. Edward Black, Philadelphia, is the active head of a real estate concern. And Mrs. Black is 90 years old. She became head of the firm when she was 68—upon the death of her husband. Don't waste time worrying about being too late. It is never too late, if health and spirit function.

The Daybook

OF A

New Yorker

—By—
BURTON RASCOE

NEW YORK, March 24. — One of the cheapest and best sight-seeing trips available in New York is that across the Hudson on the Foran ferry. Once on the ferry you will be puzzled by the device route taken from shore to shore. Because of the current of the Hudson which varies according to the time of day, the ferry boats go upstream for a considerable distance before they turn toward the opposite shore. Then, running under half power, they drift cleverly into the ferry slips. They usually hit the walls of the slip sideways. It all looks and sounds to one who has first experienced the trip as though the pilot were pie-eyed. There is a bang and a creaking. But there is no damage done.

From the top of the Palisades there is a delightful trip on a street car, which winds down a corkscrew path to the docks. From the heights the city across the river and the tiny figures of the boats look curiously like a miniature scene in a department store toy-town.

In the exhausting profession of thrilling tabloid readers, the writer of "true confession" tales must do more than offer the familiar triangle situation. The new art embellishes and flavors its snappy stories, as few arts have done before. I quote from "The Lure of Romance," which was bestowed on readers of the Evening Graphic recently.

"Yes," he answered, "You must have the organ. There is something I wish you would try. You need the direct contact. You should practice in your bare feet. Will you try it?"

"Why, yes," I answered, somewhat embarrassed.

"He stooped and slipped off my slippers and drew off my rolled shoes. As he stood, my heart went dead. Behind him in the doorway stood my husband, face chalky white and eyes black like fire.

"So this is the way you learn to play the pipe organ," he sneered."

The last name in the New York telephone book is the surname Zaid. It is not a real name, however, but the name adopted by a chap, who wants to avoid the annoyance of telephone calls by not having his real name listed in the directory. To his particular friends he tells them they can reach him by calling the last number in the Manhattan telephone directory. That also saves them from the bother of trying to remember the number.

The proprietor of a Park Row speakeasy had a row with his chief bartender. The bartender persuaded a monied gentleman to back him in opening another thirst-quenching parlor nearby. It also occurred to the bartender that it would be excellent revenge upon his former boss to tip off federal agents to the former boss' business.

By a singular coincidence the former boss, hearing of the rival speakeasy, had the same idea. Within a week federal officers had swooped down and closed both places.

STORES

One of the phases of human nature that every big-store manager knows is the difference between men and women buyers seeking the same sort of article. For example, the average man, looking at a new suit, considers quality first, price second, and style third. With women exactly the reverse is true. Style is the paramount requisite. Then comes the question of price, and quality last. After eliminating the items of style and quality, however, price is more important to a woman than to a man. Women are more careful shoppers than men. They will go farther to get exactly what they want.

Each year sees an increased tendency in nearly all lines of business to cater to women buyers. Even in men's wear, advertising appeals are made as to the man's wife as to the man himself. Many men wisely let their wives buy their shirts and neckties, and the consequence is that fewer red neckties are being worn with purple shirts.

If a man goes into a store accompanied by his wife to the right side of her neck, I thought I could do that much for her to keep peace: I examined her mouth and teeth and found a tooth with a good sized cavity right over the gland. On my recommendation she was taken to a dentist and had the cavity cleaned out and filled, and the swelling rapidly subsided.

Irene's swollen gland was the sublingual gland, which with the parotid and the submaxillary glands secrete the saliva. They may become swollen from any infection anywhere in the mouth. Most often, swollen glands of the neck are the lymph glands. One of the functions of the lymph glands is to act as a first line of defense in holding up invading disease bacteria. So where there are infections anywhere, the neighboring lymph glands may become enlarged. Each locality has its own set of glands and normally they cannot be seen. Lymph glands are much more active in children

down and perched on my shoulder. It is not a waste of words, then, to tell about gussets in the advertisement? No; because most men's underwear, in department stores, is not bought by the wearer, but by the wearer's wife. And she knows what a gusset is if he does not.

How to Achieve Beauty

By MME. HELENA RUBINSTEIN

REDUCING DIETS

Normal weight can never be a definite and inflexible figure. It is so absolutely dependent upon height, size, bone, even nationality and modern style trend.

Fifteen years ago beauty was generously curved; today it's angular, tomorrow — and mark my prophecy! — the beauty scale will measure an extra 10 pounds! The pendulum is ready and willing to swing back to the gracefully-rounded contours of femininity. And I, for one, am glad of it. Pointed elbows and knobby knees are not beautiful, and no fashion in the world can make them so! However, unfortunately there are many of us to whom the 10-pound leeway is going to be but a drop in the bucket.

Of course the modern fad of drastic reducing is an actual health menace. No woman should undertake any more than a 15-pound reduction, except under direct medical supervision. No woman under 18 — or child, I shall say, for I am not modern in calling our adolescents anything but children — should ever do any more than abstain from rich pastries or candies or eating between meals.

Vigorous exercise, and limited food, followed by a day of laziness and French chocolates, aren't going to do one bit of good for you. A three-day fast, followed by six meals and "nibbles" and

"snatches" in between times, will be quite worthless! Right living will standardize your weight, unless there is a functional or glandular disorder; and in any such instance you should be under a physician's care. Sedentary people usually eat more than active ones. It's a vicious circle. Perhaps they began eating too much first, and then laziness developed in self-defense of those fleshy tissues which detested the slightest disturbance which might stimulate healthy circulation and break them down!

There are so many tempting foods, unfortunately, which ruin the digestion, the skin and the figure. Candies and sodas and pastries and, in the nipping days of early spring, hot fudge sundaes, with hundreds of calories in each spoonful. I know it takes a heroic soul to practice self-denial, but while we aren't Spartans, and obesity is not yet a civic offense (and it might be), it is heart-breaking to be delegated to the stylish stouts, isn't it? Sugar, you see, is a habit-forming food. The more you eat, the more you want, and the more you'll weigh — which is a dreadful thing to contemplate.

A reducing diet may contain from 1,000 to 1,500 calories a day. With the proper exercise you can cut down one-fourth pound a week — or at the most, one pound.

Choose your food wisely, and you will never need to resort to pills and potions for your weight.

SWOLLEN NECK GLANDS

Some years ago, as I was visiting my sister, my niece and her little chum came into the room.

"Aunt Lou, what is this swelling under Irene's chin?" demanded Alice, bringing her chum over.

"Irene must have her mother take her to the family physician to see what is the trouble," I told her.

"But why," insisted Alice, "knowing nothing of medical ethics or practice — 'when you can tell her for nuthin'?"

Now Irene was apparently in good health, but she had a swelling the size of a walnut under the right side of her neck. I thought I could do that much for her to keep peace: I examined her mouth and teeth and found a tooth with a good sized cavity right over the gland. On my recommendation she was taken to a dentist and had the cavity cleaned out and filled, and the swelling rapidly subsided.

Irene's swollen gland was the sublingual gland, which with the parotid and the submaxillary glands secrete the saliva. They may become swollen from any infection anywhere in the mouth. Most often, swollen glands of the neck are the lymph glands. One of the functions of the lymph glands is to act as a first line of defense in holding up invading disease bacteria. So where there are infections anywhere, the neighboring lymph glands may become enlarged. Each locality has its own set of glands and normally they cannot be seen. Lymph glands are much more active in children

down and perched on my shoulder. It is not a waste of words, then, to tell about gussets in the advertisement? No; because most men's underwear, in department stores, is not bought by the wearer, but by the wearer's wife. And she knows what a gusset is if he does not.

MENU HINT

It is not too late in the season to serve pork occasionally. In fact some people use it all the year around. It is better, I think, to omit it during the warmest weather. It's a bit heavy for summer when we need lighter food and less meat of all kinds. Through cooking is always necessary with pork. The menu is for an entire day.

BREAKFAST

Orange Juice
Cooked Cereal, Brown Sugar
Top Milk
Cinnamon Toast Coffee
DINNER
Pork Turkeys with Brown Gravy
Baked Potatoes on Half Shell
Orange-Cabbage Salad
Brown Bread and Butter
Applesauce

SUPPER

Egg Sandwiches on Lettuce Leaf
Pickles
Fresh Fruit or Stewed Fruit
Cookies Milk

Pork Turkeys — Have butcher cut pork chops double and cut slit through center of each. Prepare dressing of stale bread crumbled fine and seasoned well with salt, pepper, melted butter and a pinch of poultry seasoning. Stuff chops and pin openings together with tooth picks. Roll in well seasoned flour. Fry until brown on both sides in equal parts of butter and lard. Add one pint or more of water and bake in moderate oven for two hours. When done lift chops and make brown gravy.

Orange-Cabbage Salad — Three cups cabbage chopped fine, two oranges diced, one-fourth pound marshmallows cut in small pieces, one cup whipped cream, two tablespoons of mayonnaise. Mix all together and serve on head lettuce.

Chocolate Cake — Two squares bitter chocolate, one cup granulated sugar, two tablespoons butter. Place in double boiler and melt. Add one-half cup of hot water, one cup of flour, one-fourth cup sour milk, three-fourths teaspoon soda, one egg, well beaten, salt and vanilla to taste.

(Mrs. Mary Morton's Daily)

Pick the leaves from two quarts of spinach, wash and throw them into a hot kettle and shake and toss for five minutes. Drain, saving the small amount of water which has formed. Chop the leaves very fine and press them through a sieve. Return to kettle, add a tablespoon grated onion and one quart milk. Rub together two tablespoons butter and two of flour, add to soup, stirring constantly until thick and smooth. Add a teaspoon of salt and a dash of white pepper. Serve with small squares of toasted bread.

reimburse them for it).

Tuberculous glands are not painful, and sometimes they will seem to recede somewhat and then enlarge again. They may soften and break down, and then especially is their danger of tuberculosis of the lungs and other tissues. (Glandular and bone tuberculosis is very effectively treated now by the sunlight treatment, either the direct sunlight or through the therapeutic lamps).

Anyone who is afflicted with swollen glands of any nature should get expert advice from a physician as soon as possible, to protect from further complications.

Behind the Scenes in Washington

By CHARLES P. STEWART

WASHINGTON, March 24. — Styles go on in cycles.

One fashion goes out and another comes in. A third succeeds the second, a fourth succeeds the third, and so on.

But eventually, up bobs No. 1 again.

As true in politics as in anything else.

After a long period of dignified, highbrow presidential campaigning — the candidate sits on his own front porch and makes the electorate come up and kowtow before him — party managers are beginning to sense a return to popularity this year of the more intimately personal method, of a generation ago — with the aspirants for office themselves on the stump and mixing with the multitude — lots of red-hot oratory — maybe even torchlight processions wouldn't "go bad."

Senator Jim Reed's pre-convention tour is given most of the credit for conveying the reminder that a public man can appeal to an auditorium full of voters, face to face, a heap more tellingly than he can do it over the radio.

Perhaps the difference isn't so much in the appeal as it's in the audience.

There isn't the inspiration, sitting in your own quiet parlor, with a pair of ear phones on and listening to a speech, that there is in listening to it in a perspiring mob, pounding on the floor at every point the spellbinder makes, and yelling, "Ain't that right? Give it to 'em, Jim!"

Of course a candidate has to have just the right temperament to make a successful "whirlwind" campaign.

Senator Reed has it.

So has Al Smith. So has Charles Dawes.

Either Smith or Reed versus Dawes would provide a season of political meteorology such as this country hasn't experienced since the epoch of Col. Roosevelt, the elder, anyway.

In fact, it would be better than that, for the colonel lacked competition. This would be whirlwind against whirlwind.

Yes, Dawes could match whirlwinds with anybody.

'Erbert 'Oover, as his detractors are calling him, wouldn't be 1, 2, 3 opposed to a Smith or Reed whirlwind.

Either one would simply pick him up and spin him around.

It might land him in the White House, but he'd be as helpless as a teetotal while it was going on.

'Erb's cue, if they nominate him against Smith or Reed, is to sit tight in his cyclone cellar at the commerce department and let 'em rage.

It will be unfortunate for him to have to do so, assuming that a whirlwind and another coming back in style, but it will be better than trying to adapt himself to anything so ill-suited to his type of beauty. It not only wouldn't be becoming to him — it would muss him all up.

A whirlwind campaign's harder to conduct these times than it used to be — the country's so much bigger.

A century ago, when the United States stopped at the Alleghenies, it was all very well, but it's a man-killing enterprise now, even to cover only the high spots.

Nevertheless, Reed's made the experiment, with brilliant promise. Since it works so well, as tested by a mere candidate for a nomination, what wouldn't it do, most likely, followed up by an actual presidential nominee?

Living and Loving

By MRS. VIRGINIA LEE

The writer of the following letter begs me to print it.

"Dear Mrs. Lee: Will you please print this letter? May be he'll see it and come back to me.

"I am 19, and oh, Mrs. Lee, so heartbroken. My dead uncle's wife took the only man I love away from me. She is 37. I have loved him two years. He said he loved me, but I believe he is just sorry for me. I wanted to take my own life, but he begged me so hard not to. She is wearing his ring, and I was told she was engaged to him. He never mentioned it to me. One man loved me at first sight. I was to be married in December, but I broke that couple up. I didn't know it then. I will never be happy if I marry him. I do not love him. Sister wants me to marry this other fellow and I guess I will. But she will never know that my heart is calling for my about friend. What must I do to try to take him away from her?"

"Tired of Life."

Let us drop all this wild emotion and look at your problem quietly. If this man loves you, surely he cannot be forced to marry the older woman. He'll come back to you. He would hardly have asked you for your picture if he had not thought a good deal of you. And if he doesn't, you are not going to die of a broken heart. Will you think me very heartless if I say your letter sounded like that of a spoiled child? I should judge that you had always been babied on account of your spine, and you thought everybody should give up to you. How about this girl whose lover you took, although unknowingly? Has she committed suicide? Possibly she felt as badly about the loss of her lover as you did of yours. And why punish the man who wants to marry you by marrying him, loving another?

Back to the girl who loves him — back to the girl who loves him — provided she wants him back — than in marrying him yourself.

Peter's Adventure

By MRS. FLORENCE SMITH VINCENT

THE RED EYES IN TROUBLE AGAIN

Johnny Wren had not followed Peter and Mrs. Wren into the bird house, but had stayed outside on the porch. When the bird and the boy came out again there he sat singing away with all his might and main, his little beak wide open. Jenny Wren smiled at him fondly and remarked to Peter:

"How could any wife stay cross long with a rollicking husband like that? I do fuss and scold a lot, I know, and sometimes it does seem as if I should never get through the day's work."

"But Johnny says to me all the while, and though I often scold at him for doing so, I really love to hear him. I don't think there is any other voice in the world quite as sweet or any song quite as merry as his. Dear old boy, doesn't he look happy as he sits there?"

Mrs. Wren, with a flirt of her small tail, hopped over to her husband's side and bent down as if to whisper something in his ear. The sun shone upon her gown of reddish brown with bands of black and the boy was about to tell Mrs. Wren how pretty she looked when suddenly she straightened up.

Johnny stopped singing at the same instant and both peered over the edge of the porch and appeared to be listening to something. Then Peter heard a queer sound. Some one was much excited and was talking so fast and furiously that at last the words could not make out the boy could not make out the words. The noise came from the tree right next to the one in which the Wrens had their apartment and at last the boy discovered the spaker.

Hanging between the forked twigs of a branch directly across the way was a nest. And as he lay on the branch stood a little lady bird, dressed in olive green, with the cutest of grey bonnets upon her head. But the queerest thing about her (and the boy couldn't help but notice them at once as she of the commotion) were her eyes. They were just as red as could be, and above them were white marks — her eyebrows, of course — but astonishingly large ones they were for such a small bird! Right by her stood her husband, and it was he who was shouting. Now Peter understood quite clearly what he was saying.

"You see it? You know it? Do you hear me? Do you believe

me? Mrs. Cowbird has left one of her eggs in our nest. She did it this morning when wife and I had flown off for a bite to eat. We were not gone but a minute or two, but when we came back there the great thing was. And that was the worst of it is that she ate up one of our eggs to make room for her own. Do you hear me? Do you believe me?"

"The Red Eyes are in trouble again! I feel so sorry for them!" Jenny Wren looked sympathetic as she explained things to the puzzled

"DO YOU HEAR ME? Mrs. Cowbird HAS LAIN AN EGG IN OUR NEST! MR. WREN SHRIEKED THE BAD NEWS

boy. "The same thing happens every single season.

"Mr. and Mrs. Red Eye Vireo are the kindest hearted birds in all birdland, and once that detestable Mrs. Cowbird has laid her egg in their nest they hatch it and care for the birdling as if it was their own. And it is so much larger than their children that it crushes them and tramples upon them and grabs all the food first, and the poor baby Red Eyes seldom live to grow up.

"It is a dreadful thing. I just can't understand why they allow it at all. I should peck the poor bird to pieces if it were left in their nest. That I should!"

BIBLE THOUGHT FOR TODAY

WISDOM GIVEN — The Lord giveth wisdom: out of his mouth cometh knowledge and understanding.—Prov. 2:6.

CLOGGED HIGHWAYS

It is contended that a rule against slow driving should be enforced to prevent congestion of traffic. On a narrow road the slow drivers clog the lane. The answer is, there should be no narrow roads.

Road builders thought if they made the road hard and smooth and well graded, they had laid down an automobile road. They had not. They had built half a road. It ought not to be necessary to compel a river to travel more rapidly than he cares to. Leisurely-minded people ought not to find that the age cannot tolerate their habits. There is much to commend them. They are probably more solid and substantial than habits of going nowhere at high speed.

The narrow road is just next to no road at all. Four lines of travel are required for days in which every other person drives a car.

The slogan "good roads is not enough. Two more words must be added, "wider roads."

CONVINCING

(The following is taken from the Toronto Globe)

The Globe has received a letter from a reader who, seemingly, does not agree with this paper's temperance policy, but his argument is set forth on his own typewriter is so convincing that it is deserving of more than ordinary prominence. The letter follows:

To the Editor of The Globe: I have been presented with a fine bottle of Scotch whisky, and it is before me as I sit at my typewriter and indite this letter to you. What right has any form or law to make me a criminal if I partake of this gift as it was intended that I do by the giver?

I have just tasted of this bottle of liquor, I will confide to you, and I cannot see where or how I am invading the rights of any other person on earth I cannot feel, Mr. Editor, that I have wronged the community or added to the lawlessness of general society in doing so. I like a little drink, and now I have taken a third, or maybe it is a fourth, and I am more than ever convinced that any man that doesn't like a little drink, is a little idiot. You say that this evasion of the law is producing a state of affairs in our Great and Glorious Country. You are wrong.

I want to say to you that this scotch is all right. A lot of it wouldn't do us harm. When we need stimulant we need it.

My grandfather was brought up on rum. They had it in the house all the time. They drank it freely and even the ministwo drink it when he came to our house. It's pretty kind of a cinder when a grandson is better than his grandfather. I can drink this sort of Scotch all day and not be no worse a citizen than I was before. I could drink this whole wuzet and neeger wuiber en etelash.

These typewriter keys are bawking around so I can't write no more. But when I think of you it is so much fun again and again that you are dead wrong in confining verban who drinks as a bonum. We ain't criminals. We are as good as you. We want a drink orRR not as Nec abo7y ill, but weEan't no bUMS.

The Way of the World

TRAMPS

A few years ago tramps and flitting toilers, traveling on "blind beggars" and side-door Pullman's outnumbered train crews. Today they are few. Perhaps in this day of softness and luxury tramps have caught the spirit of ease and refuse to travel in the plain, old-fashioned way.

DRAMATIC APPEAL

The woman claiming to be the daughter of the late czar of Russia appeals to popular imagination. Such cases always do. She says she escaped when the rest of the family were killed by the bolsheviks. The fact she speaks German and not Russian doesn't bother her. She says she forgot her native language. She says a Red bayonet knocked her teeth out. A Berlin dentist says he pulled them out. Well, her story may yet be true or it may not. We jump at the spectacular, the unusual, the bizarre, the dramatic. It all helps to make the world an interesting place in which to live.

LINDY'S PLANE

Lindbergh's airplane, which has carried him safely through many climes for 40,000 miles, will soon come to rest in the Smithsonian Institution in Washington. Generations to come will gaze on the "Spirit of St. Louis" and wonder and admire. But the spirit of Lindbergh, caught by boys and young men all over this land, will be handed down to uncounted generations. That is a far bigger thing than a monoplane in a museum.

BY ABSORPTION

Education experts say pupils learn art by absorption. Artistic surroundings are exceedingly important. Watch your home—the pictures on the wall, the rugs, and chairs. Bring beauty into your home to the limit of what you can afford. There is where taste in art is learned.

PREPAREDNESS

The wise Queen Wilhelmina of Holland sees to it that her daughter studies law, so she can make a living at that profession if anything happens to the king and queen business in Europe. Thrones have proved shaky of late years. Wilhelmina believes in preparedness. But the same good sense she shows in this case has helped make her a wise and popular sovereign. Her throne is not tottering.

AGE AND SPIRIT

Given good health, there is no age. There is only spirit and the change of spirit. Mrs. Edward Black, Philadelphia, is the active head of a real estate concern. And Mrs. Black is 90 years old. She became head of the firm when she was 68—upon the death of her husband. Don't waste time worrying about being too late. It is never too late, if health and spirit function.

The Daybook

BURTON RASCOE

NEW YORK, March 24. — One of the cheapest and best sight-seeing trips available in New York is that across the Hudson on the Fort Lee ferry. Once on the ferry you will be puzzled by the devious route taken from shore to shore. Because of the current of the Hudson which varies according to the time of day, the ferry boats go upstream for a considerable distance before they turn toward the opposite shore. Then, running under half power, they drift cleverly into the ferry slips. They usually hit the walls of the slip sideways. It all looks and sounds to one who has first experienced the trip as though the pilot were picked. There is a bang and a creaking. But there is no damage done.

From the top of the Palisades there is a delightful trip on a street car, which winds down a corkscrew path to the docks. From the heights the city across the river and the tiny figures of the boats look curiously like a miniature scene in a department store toy-town.

In the exhausting profession of thrilling tabloid readers, the writer of "true confession" tales must do more than offer the familiar triangle situation. The new art embellishes and flavors its snappy stories as few arts have done before. I quote from "The Lure of Romance," which was bestowed on readers of the Evening Graphic recently.

"Yes," he answered. "You must have the organ. There is something I wish you would try. You need the direct contact. You should practice in your bare feet. Will you try it?"

"Why, yes," I answered, somewhat embarrassed.

"He stooped and slipped off my slippers and drew off my rolled hose. As he stood behind me, my heart went dead. Behind him in the doorway stood my husband, face chalky white and eyes black like fire.

"So this is the way you learn to play the pipe organ," he sneered.

The last name in the New York telephone book is the surname Zayd. It is not a real name, however, but the name adopted by a chap, who wants to avoid the annoyance of telephone calls by not answering the phone. He has listed his directory. To his particular friends he tells them they can reach him by calling the last number in the Manhattan telephone directory. That also saves them from the bother of trying to remember the number.

The proprietor of a Park Row speakeasy had a row with his chief bartender. The bartender persuaded a monied gentleman to back him in opening another thirst-quenching parlor nearby. It also occurred to the bartender that it would be excellent revenge upon his former boss to tip off federal agents to the former boss' business.

By a singular coincidence the former boss, hearing of the rival speakeasy, had the same idea.

Within a week federal officers swooped down and closed both places.

Kellygrams

STORES

One of the phases of human nature that every big-store manager knows is the difference between men and women buyers seeking the same sort of article. For example, the average man, looking at a new suit, considers quality first, price second, and style third. With women exactly the reverse is true. Style is the paramount requisite. Then comes the question of price, and quality last. After eliminating the items of style and quality, however, price is more important to a woman than to a man. Women are more careful shoppers than men. They will go farther to get exactly what they want.

Each year sees an increased tendency in nearly all lines of business to cater to women buyers. Even in men's wear, advertising appeal is made about as much to a man's wife as to the man himself. Many men wisely let their wives buy their shirts and neckties, and the consequence is that fewer red neckties are being worn with purple shirts.

If a man goes into a store accompanied by his wife to buy himself a hat, suit, shirt, or even a pair of garters, the clerk is likely to address himself chiefly to the wife. He knows that her judgment will largely govern the transaction. The reason she is along, in all probability is that, just after some previous purchase of his, she has issued an ultimatum declaring:

"The next time you buy a hat I'm going to pick it out for you."

Moreover, the clerk knows that unless he is especially polite to his wife she will take a dislike to that store and talk her husband out of trading there again. On the other hand, if the husband should feel hurt because the clerk was inclined to ignore him, the wife by the time they reach home, will have convinced him that his grievance was all imaginary and that the clerk was in reality a charming fellow.

Not infrequently a store advertising men's underwear describes the goods in detail, something like this:

"The drawers are well made, cotton ribbed, with full gussets"—and so on.

Now, not one man is a hunter, or a thousand, knows what gussets are. I myself should not know a gusset even if it came down and perched on my shoulder.

It is not a waste of words, then, to tell about gussets in the advertisement? No; because most men's underwear, in department stores, is not bought by the wearer, but by the wearer's wife. And she knows what a gusset is if he does not.

How to Achieve Beauty

By MME. HELENA RUBINSTEIN

REDUCING DIETS

Normal weight can never be a definite and inflexible figure. It is so absolutely dependent upon height, size, bone, even nationality and modern style trend.

Fifteen years ago beauty was generally curved; today it's angular, tomorrow — and mark my prophecy! — the beauty scale will measure an extra 10 pounds! The pendulum is ready and willing to swing back to the graciously-rounded contours of femininity. And for one, am glad of it. Pointed elbows and knobby knees are not beautiful, and no fashion in the world can make them so! However, unfortunately there are many of us to whom the 10-pound leeway is going to be but a drop in the bucket.

Of course the modern fad of drastic reducing is an actual health menace. No woman should undertake any more than a 15-pound reduction, except under direct medical supervision. No woman under 18 or child, I shall say, is a habit-forming food. For I am not modern in calling our adolescents anything but children — should ever do any more than obtain from rich pastries or candies or eating between meals.

Vigorous exercise, and limited food, followed by day of laziness and French chocolates, aren't going to do one bit of good for you. A three-day fast, followed by six meals and "nibbles" and

"snatches" in between times, will be quite worthless! Right living will standardize your weight, unless there is a functional or glandular disorder; and in any such instance you should be under a physician's care. Sedentary people usually eat more than active ones. It's a vicious circle. Perhaps they began eating too much first, and then laziness developed in self-defense of those fleshy tissues which detested the slightest disturbance which might stimulate healthy circulation and break them down!

Candies and sodas and pastries and, in the nipping days of early spring, hot fudge sundaes, with hundreds of calories in each spoonful. I let them tempt me, and while we aren't Spartans, and obesity is not yet a civic offense (and it might be), it is heart-breaking to be delegated to the stylish stouts, isn't it? Sugar, you see, is a habit-forming food. The more you eat, the more you want, and the more you'll weigh — which is a dreadful thing to contemplate.

A reducing diet may contain from 1,000 to 1,500 calories a day. With the proper exercise you can cut down one-fourth pound a week — or at the most, one pound.

Choose your food wisely, and you will never need to resort to pills and potions for your weight.

SWOLLEN NECK GLANDS

Some years ago, as I was visiting my sister, my niece and her little chum came into the room.

"Aunt Lulu, what is this swelling under Irene's chin?" demanded Alice, bringing her chum over.

"Irene must have her mother take her to the family physician to see what is the trouble," I told her.

"But why," insisted Alice — knowing nothing of medical ethics or practice — "when you can tell her for nothing?"

Not Irene was apparently in good health, but she had a swelling the size of a walnut under the right side of her neck. I thought I could do that much for her to keep peace: I examined her mouth and teeth and found a tooth with a good sized cavity right over the gland. On my recommendation she was taken to a dentist and had the cavity cleaned out and filled, and the swelling rapidly subsided.

Irene's swollen gland was the sublingual gland, which with the parotid and the submaxillary glands secrete the saliva. They may become swollen from any infection anywhere in the mouth.

Most often, swollen glands of the neck are the lymph glands. One of the functions of the lymph glands is to act as a first line of defense in holding up invading disease bacteria. So where there are infections anywhere, the neighboring lymph glands may become enlarged. Each locality has its own set of glands and normally they cannot be seen. Lymph glands are much more active in children

than in adults, therefore they are much more likely to show infections.

The glands in the neck are known as the cervical lymph glands. The swelling of these glands as the result of tonsillitis, colds, etc., usually appears very suddenly, and fortunately they also disappear as soon as the infection is over. Dr. H. L. Shaw, consulting children's specialist of the State Department of Health, New York, and many others, advise the use of an ice bag over the suddenly inflamed glands until they become smaller (in connection, of course, with the measures to combat the original infection). The use of hot poultices or hot packs helps to soften and break down the gland, and this is to be avoided, if possible.

However, if the swelling becomes red and soft, showing that pus has gathered, it should be opened by a surgeon and not allowed to break open by itself. A surgical cut can be made in such a way that practically no scar will be left, while Nature's repair is pretty sure to leave an unsightly scar. "Nature is a good physician but a bad surgeon," (Lindsay).

Tubercular infected glands do not enlarge so suddenly as those from other infections, and there is most always some general anemia and undernourished condition accompanying them.

Tubercular glands in the neck and elsewhere usually come from drinking milk from cows that have tuberculosis. While pasteurizing and boiling milk will kill the germs, tuberculosis should not be in the milk, and when what is known as the Accredited Herd Plan is universal, tuberculosis from this source will be eradicated. Many states now have this Accredited Herd Plan. (The Federal and State authorities co-operate with the dairymen; they slaughter all cows that have tuberculosis and

Pork Turkeys — Have butcher cut pork chops double and cut slit through center of each. Prepare dressing of stale bread crumbled fine and seasoned well with salt, pepper, melted butter and a pinch of poultry seasoning. Stuff chops and pin openings together with tooth picks. Roll in well seasoned flour. Fry until brown on both sides in equal parts of butter and lard. Add one pint or more of water and bake in moderate oven for two hours. When done lift chops and make brown gravy.

Orange-Cabbage Salad — Three cups cabbage chopped fine, two oranges diced, one-fourth pound marshmallows cut in small pieces, one cup whipped cream, two tablespoons of mayonnaise. Mix all together and serve on head lettuce.

Chocolate Cake

Two squares bitter chocolate, one cup granulated sugar, two tablespoons butter. Place in double boiler and melt. Add one-half cup of hot water, one cup of flour, one-fourth cup sour milk, three-fourths teaspoon soda, one egg, well beaten, salt and vanilla to taste.

Cream of Spinach Soup

Tested Recipe
(Mrs. Mary Morton's Daily) Pick the leaves from two quarts of spinach, wash and throw them into a hot kettle and shake and toss for five minutes. Drain, saving the small amount of water which has formed. Chop the leaves very fine and press them through a sieve. Return to kettle, add a tablespoon of grated onion and a dash of salt. Boil for five minutes. Add one cup of milk, one cup of cream and two of flour, add to soup, stirring constantly until thick and smooth. Add a teaspoon of salt and a dash of white pepper. Serve with small squares of toasted bread.

Tubercular glands are not painful, and sometimes they will seem to recede somewhat and then enlarge again. They may soften and break down, and then especially is their danger of tuberculosis of the lungs and other tissues. (Glandular and bone tuberculosis is very effectively treated now by the sunlight treatment, either the sunlight or through the therapeutic lamps).

Anyone who is afflicted with swollen glands of any nature should get expert advice from a physician as soon as possible, to protect from further complications.

Behind the Scenes in Washington

By CHARLES P. STEWART

WASHINGTON, March 24. — Styles go in cycles.

One fashion goes out and another comes in. A third succeeds the second, a fourth succeeds the third, and so on.

But eventually, up bobs No. 1 again. It's as true in politics as in anything else.

After a long period of dignified, highbrow presidential campaigning — the candidate sits on his own front porch and makes the electorate come up and kowtow before him — party managers are beginning to sense a return to popularity this year of the more intimately personal method, of a generation ago — with the aspirants for office themselves on the stump and mixing with the multitude — lots of redhot oratory — maybe even torchlight processions wouldn't "go bad."

Senator Jim Reed's pre-convention tour is given most of the credit for conveying the reminder that a public man can appeal to an auditorium full of voters, face to face, a heap more tellingly than he can do it over the radio.

Perhaps the difference isn't so much in the appeal as it's in the audience. There isn't the inspiration, sitting in your own quiet parlor, with a pair of ear phones on and listening to a speech, that there is in listening to it in a perspiring mob, pounding on the floor at every point the spellbinder makes, and yelling, "Ain't that right? Give it to 'em, Jim!"

Of course a candidate has to have just the right temperament to make a successful "whirlwind campaign."

Senator Reed has it. So has Al Smith. So, likewise, has Charley Dawes.

Either Smith or Reed versus Dawes would provide a season of political meteorology such as this country hasn't experienced since the epoch of Col. Roosevelt, the elixer, anyway.

In fact, it would be better than that, for the colonel lacked competition. This would be whirlwind against whirlwind.

Yes, Dawes could match whirlwinds with anybody. "Erbert" Oover, as his detractors are calling him, wouldn't be 1, 2, 3 opposed to a Smith or Reed whirlwind.

Either one would simply pick him up and spin him around. It might land him in the White House, but he'd be as helpless as a teetotum while it was going on.

'Erbs' cue, if they nominate him against Smith or Reed, is to sit tight in his cyclone cellar at the commerce department and let 'em rage.

It will be unfortunate for him to have to do so, assuming that a whirlwind method's coming. It's into style, but it will be better than trying to adapt himself to anything so ill-suited to his type of beauty. It not only wouldn't be becoming to him — it would muss him all up.

A whirlwind campaign's harder to conduct these times than it used to be — the country's so much bigger.

A century ago, when the United States stopped at the Alleghenies, it was all very well, but it's a man-killing enterprise now, even to cover only the high spots.

Nevertheless, Reed's made the experiment, with brilliant promise. Since it works so well, as testified by a mere candidate for a nomination, what wouldn't it do, most likely, followed up by an actual presidential nominee?

Living and Loving

By MRS. VIRGINIA LEE

The writer of the following letter begs me to print it:

"Dear Mrs. Lee: Will you please print this letter? Maybe he'll see it and come back to me."

"I am 19, and oh, Mrs. Lee so heartbroken. My dear uncle's wife took the only man I love away from me. She is 37. I have loved him two years. He said he loved me, but I believe he is just sorry for me. I wanted to take my own life, but he begged me so hard not to. She is wearing his ring, and I was told she was engaged to him. He never mentioned it to me. One man loved me at first sight. He was to be married in December, but I broke that couple up. I didn't know it then. I will never be happy if I marry him. I do not love him. Sister wants me to marry this other fellow and I guess I will. But she will never know that my heart is calling for my absent friend. What must I do to try to take him away from her?"

"Tired of Life."

Let us drop all this wild emotion and look at your problem quietly. If this man loves you, surely he cannot be forced to mar-

ry the older woman. He'll come back to you. He would hardly have asked you for your picture if he had not thought a good deal of you. And if he doesn't, you are not going to die of a broken heart. Will you think me very heartless if I say your letter sounded like that of a spoiled child? I should judge that you had always been babied on account of your spine, and you thought everybody should give up to you. How about this girl whose lover you took, although unknowingly? Has she committed suicide? Possibly she felt as badly about the loss of her lover as you did of yours. And why punish the man who wants to marry you by marrying him, loving another? Doesn't it all seem a bit unfair to you when you think it over? Be a sport, dear. If the man is weak enough to marry another woman, loving you, he isn't worth bothering about, and you would reap more happiness in trying to get the man who says he loves you, back to the girl who loves him — provided she wants him back — than in marrying him yourself.

Peter's Adventure

By MRS. FLORENCE SMITH VINCENT

THE RED EYES IN TROUBLE AGAIN

Johnny Wren had not followed Peter and Mrs. Wren into the bird house, but had stayed outside on the porch. When the bird and the boy came out again there he sat singing away with all his might and main, his little beak wide open. Jenny Wren smiled at him fondly and remarked to Peter:

"How could any wife stay cross long with a rollicking husband like that about! I do fuss and scold a lot, I know, and sometimes it does seem as if I should never get through the day's work."

But Johnny sang me all the while, and though I often scold at him for doing so I really love to hear him. I don't think there is any other voice in the world quite as sweet or any song quite as merry as his. Dear old boy, doesn't he look happy as he sits there?"

Mrs. Wren, with a flirt of her small tail, hopped over to her husband's side and bent down as if to whisper something in his ear. The sun shone upon her gown of red and brown with bands of black and the boy was about to tell Mrs. Wren how pretty she looked when suddenly she straightened up.

Johnny stopped singing at the same instant and both peered over the edge of the porch and appeared to be looking to something. Then Peter heard a queer sound. Some one was much excited and was talking so fast and furiously that at first the boy could not make out the words. The noise came from the tree right next to the one in which the Wrens had their apartment and at last the boy discovered the speaker.

Hanging between the forked twigs of a branch directly across the way was a nest. And close by the nest, stood a little lady bird, dressed in olive green, with the cutest of grey bonnets upon her head. But the queerest thing about her (and the boy couldn't help but notice them at once in spite of the commotion) were her eyes. They were just as red as could be, and above them were white marks — her eyebrows, of course — but astonishingly large ones they were for such a small bird! Right by her stood her husband, and it was he who was shouting. Now Peter understood quite clearly what he was saying.

AT LAST! A VERY RARE VIEW, THIS

For the first time in baseball history this picture is possible—Eddie Collins, left; Tris Speaker, and Ty Cobb, all in the same uniform. The three, who once were diamond marvels, were snapped in the Philadelphia Athletics' training camp in Florida.

MANY ENTERTAINED AT SECOND ANNUAL OSBORN MARDI GRAS

More than 5,000 persons are estimated to have thronged into the spacious post gymnasium at Fairfield Friday night for the opening of the second annual Mardi Gras, being staged under the joint auspices of the Wright Field Athletic Association and George E. Dignam Post, No. 526, American Legion.

The affair will continue through Saturday night. Visitors were afforded a variety of forms of entertainment, including dancing and moving pictures. Plenty of amusement was available throughout the evening. Gaily decorated booths lined each side of the hall and games added to the general merriment.

Music for the dancers was furnished by Cliff Curtner's orchestra of Dayton. This proved to be the main source of entertainment.

A number of reels depicting aviation, shown in an indoor theatre, provided one of the features of the opening night's program. The pictures traced the history of the airplane from the part the Wright brothers played to the modern plane of today.

These pictures were educating as well as entertaining and attracted a fair share of the large crowd.

CLEVELAND INDIAN TRIBE NEEDS PLUG FOR CENTERFIELD

Peckinpaugh Must Find Player To Succeed Tris

(Editor's Note: This is the last of a series of articles by the International News Service, dealing with developments affecting various major league clubs in spring training.)

NEW ORLEANS, March 24.—Midway between the 1926 and 1927 seasons, the Cleveland Indians, having lost the pennant the year before on the final day of the season, were deprived of a great centerfielder and a successful manager simultaneously. The loss couldn't have occurred in any other way because the manager and centerfielder happened to be one and the same man, Tris Speaker himself.

It makes little difference that he no longer is a great outfielder and it may even be that he no longer is a good manager. The point is that the Indians have yet to produce a man to succeed him in either position, as their surprising reversal of form in 1927 so clearly proved. And the replacement of Speaker in these two positions today remains one of the Indians' several problems as they approach the end of the training season.

Roger Peckinpaugh, hardy veteran of many a campaign, has come forward this year as the 1928 managerial hope of the Indians and to his experience and judgment has been supplemented the acumen of Billy Evans, former umpire. Between them, they should furnish the Indians with the drive and inspiration that featured Speaker's leadership. But the furnishing of a centerfielder is something else again.

There are three young outfielders with the club today who give some indication that the Indians may have better protection in centerfield this season than was the case in 1927. They are, named in the order of their status with the management, Ed Morgan, a college sensation who comes up from the New Orleans club; George Gerkin, back from Milwaukee, and Johnny Gill, up from Shreveport.

Morgan is the favorite with Peckinpaugh because of his hitting. He batted around .369 with the Pelicans last year and qualified observers declare that he will hit any time and anywhere. He, however, has displayed rather marked outfielding faults, especially on balls hit over his head. Berkin probably is a more finished man on defense but he lacks Morgan's punch and, besides, he failed to impress sufficiently when given the trial at Cleveland last year. Gill is regarded by some of the players as the best all around man of the three but they concede that he will have to swing a heavier mace to take the job away from Morgan. The latter is likely to start the season in centerfield, in spite of his fielding foibles.

He will be flanked in left by a real gardenener, Charley Jamieson, and by an acceptable man in right, Homer Summa. These are two of the real stable positions on the club. Elton Langford, up before on the big time is getting another trial but the Texan is likely to go back again.

The infield is another of Peckinpaugh's problems, or rather several of them. He has one stand-out man, Joe Sewell, the Alabama shortstop. The rest of the combination is rather uncertain, due to the arm injury of Fred Spurgeon at second base and the departure of Walter Lutzke from third base. The latter's post has been usurped by Johnny Hodapp, although the Cincinnati boy has yet to live up to his American Association notices. Aaron Ward has been brought in from the White Sox as an emergency second baseman but Wardie never has been the same since his great season in 1923. He was bad in 1924, worse the next year and has been steadily much the same since then. He may rally with a new club but the fact remains that he was with a new one last year and didn't.

Lew Fonseca wasn't exactly a bargain at second base last year but is a good man for utility duty, particularly since he also can relieve the fading George Burns at first base. The Indians make no secret of the fact that they were disappointed by their failure to snare Joe Judge from Washington, so it is safe to say that Burns is satisfactory only because no better man is available.

It is the lack of class in centerfield and the inner works that prevents the Indians from being the club their pitching merits. They have a great staff, composed of George Uhle, Emil Levens, Willis Hudlin, Joe Shaute, Walter Miller, and Garland Buckeye. Uhle, they say, is due for a comeback, which, if true,

CONCERT PLEASURES AUDIENCE FRIDAY

The Central High School orchestra and combined Boys' and Girls' Glee Clubs gave a joint public concert in Jean B. Elwell Auditorium, which was well received, Friday night.

The eighteen-piece orchestra was under the direction of E. G. Whitworth and reflected much credit for the instructor. The glee clubs were under the supervision of Miss Marie Lindsey and also gave an entertaining musical program.

EVEN UNCERTAIN PITCHING IS NOT DISCOURAGING TO TIGERS

(Editors Note: This is another of a series of articles by the International News Service, dealing with developments in connection with various major league clubs in spring training. The sixteenth and last of the series will follow.)

SAN ANTONIO, Tex., March 23.—With the spring training season almost completed, George Moriarty has just about decided the personnel of his Detroit Tigers for 1928 and, in contemplating the list, he finds himself far from dissatisfied.

The Tigers had about everything happen to them last year that can happen to a ball club, yet they finished in the money and gave indications of latent strength that seemed certain to come to the surface before long.

Moriarty wouldn't say today that it had arrived at that point but he left no doubt that he considers he has a sure contender, in spite of slightly uncertain pitching. The rest of the club, he declared, needed nothing and wanted nothing.

He is especially keen about his revamped infield. Only the key-stone pair, Tavenner and Gehring, remain from the quartet which started the 1927 season. The pair, however, is regarded by camp observers as the most promising young combination one could find in a day's travel, particularly since Tavenner has completely recovered from last season's injuries.

On first base will be Johnny Neun, who was good enough last year to drive Luke Blue to cover and eventually off the club altogether. Neun is another young star. At third will be Marty McManus, who has suddenly decided to pay some dividends on his St. Louis reputation. Marty has taken the position away from Warner, last year's regular, and is going so well that it would take a ranking star to replace him.

Moriarty refers to this infield as the best Detroit has had in years. If it does what he says it will, it will make even indifferent pitching look good.

As the Tiger pilot contends, the pitching really shouldn't be so important with Earl Whitehill, Lefty Stagner, Holloway, Gibson, Carlock, Billings, Smith and Van Gilder figured as regulars. They have the potential ability and if they begin to click, the fact that young pitching has been a disappointment this year can be forgotten. Vic Sorrell, the Sox pitcher, is away from the best of the younger crop.

The infield recruits are a nice looking lot. There is, for example, Chick Galloway, former Mackman, who is ready to jump in at an emergency any time. Frank Emmer, former Cincinnati Red, also will be carried for the same purpose. Warner is in there trying, too, and young Sweeney has done very well as a substitute first baseman.

Sweeney is one of five prize recruits turned up this season, the others being Sorrell, Emmer, who may beat Galloway out of the infield utility job, Ed Phillips, a big catcher, and Paul Easterling, a fast, young outfielder. As usual, the Tigers hardly need many outfielders, young or otherwise. They have Harry Heilmann and Bob Forthright, two of the league's leading hitters, and Red Wingo, last year's substitute, back again and, in addition, Harry Rice was brought here in return for Heinie Manush. Moriarty and the Tigers are sure they got the better of this dicker and Cite Rice's superior speed as proof of the contention. Rice surely is fitting in well with the other outfielders.

In spite of the surplus talent, Easterling may be carried all season, so well has he played here.

There doesn't seem to be any doubt about the four catchers, either. Woodall is ready to step in there and do the bulk of the work, with Shea and Hargrave as understudies and Phillips learning what he might as a warm-up man.

The catchers are not quite the class the infielders and outfielders can muster but they are at least adequate. This leaves pitching as the only real question to be answered this year.

WILMINGTON COACH PRAISES CENTRAL

That Xenia Central High basketball team was good enough to go to the finals in the recent state basketball tournament if fate had been kind, is the opinion of Coach "Shifty" Bolen of Wilmington College as expressed to Ernest Randall, Dayton, former Central High and Wilmington College athlete.

Bolen told Randall that he had seen all of the games and that Xenia Central offered Dayton Stivers, state champions, the only real opposition they encountered on their way to the championship. The Xenia team, he said, was a faster combination than Stivers, but Central was apparently helped less against the giant Hosket Stivers center, and aided by the Stivers name.

Out of the players who performed in all the games that led from this district to the state finals, Bolen said Leroy Doak, flashy forward in the Xenia team, was the outstanding high school performer he had seen.

CLEVELAND INDIAN TRIBE NEEDS PLUG FOR CENTERFIELD

Peckinpugh Must Find Player To Succeed Tris

(Editor's Note: This is the last of a series of articles by the International News Service, dealing with developments affecting various major league clubs in spring training.)

NEW ORLEANS, March 24.—Midway between the 1926 and 1927 seasons, the Cleveland Indians, having lost the pennant the year before on the final day of the season, were deprived of a great centerfielder and a successful manager simultaneously. The loss couldn't have occurred in any other way because the manager and centerfielder happened to be one and the same man, Tristram Speaker himself.

It makes little difference that he no longer is a great outfielder and may even be that he no longer is a good manager. The point is that the Indians have yet to produce a man to succeed him in either position, as their surprising reversal of form in 1927 so clearly proved. And the replacement of Speaker in these two positions today remains one of the Indians' several problems as they approach the end of the training season.

Roger Peckinpugh, hardy veteran of many a campaign, has come forward this year as the 1928 managerial hope of the Indians and to his experience and judgment has been supplemented the acumen of Billy Evans, former umpire. Between them, they should furnish the Indians with the drive and inspiration that featured Speaker's leadership. But the furnishing of a centerfielder is something else again.

There are three young outfielders with the club today who give some indication that the Indians may have better protection in centerfield this season than was the case in 1927. They are, named in the order of their status with the management, Ed Morgan, a college sensation who comes up from the New Orleans club; George Gerkin, back from Milwaukee, and Johnny Gill, up from Shreveport.

Morgan is the favorite with Peckinpugh because of his timing. He batted up around .360 with the Pelicans last year and qualified observers declare that he will hit any time and anywhere. He, however, has displayed rather marked outfielding faults, especially on balls hit over his head. Berkin probably is a more finished man on defense but he lacks Morgan's punch and, besides, he failed to impress sufficiently when given a trial at Cleveland last year. Gill is regarded by some of the players as the best all around man of the three but they concede that he will have to swing a heavier mace to take the job away from Morgan. The latter is likely to start the season in centerfield, in spite of his fielding foibles.

He will be flanked in left by a real gardener, Charley Jamieson, and by an acceptable man in right, Homer Summa. These are two of the real stable positions on the club. Elton Langford, up before on the big time is getting another trial but the Texan is likely to go back again.

Library Notes

In pursuance of its policy of making it as easy as possible for all county residents to receive good library service the Greene County District Library now announces its direct mail from library to patron service.

For some time patrons using branches have had the advantages of the main library as well as the branch book collections at their disposal. It has been customary

for branch librarians to send to the main library for special books wanted that they did not have in their collections. Books were mailed to branches with no charge to those wishing them.

Today the library announces an expansion of this service. Patrons desiring books may write or phone direct to the main library and to have books sent to them by mail. Current issues of magazines and reference books will not be mailed. The bound magazines will be mailed only in small quantities and when not needed for reference work at the main library, but all other books can be obtained in this way. The number sent will depend on the borrower since there is no limit to the number of books issued to a person over fourteen years of age. For this special service no charge will be made but the borrower will be asked to pay the postage both ways and to return books promptly.

Next time you want a book to read and can't get away from home to get it call Xenia 365-R and the librarian to send you a "good one".

TRAILING CHICAGO GANGS

Girl Reporter Invades Mid-West Metropolis Prepared for Machine Gun Fire, Hand Grenades and Bayonets—And Doesn't "Take a Ride"

Left to right, Miss Bonita Witt, the reporter trailing the gangsters; b ir d's-eye view of downtown Chicago; Chicago at night; Commissioner of Police Michael Hughes.

(Miss Bonita Witt, star writer for Central Press and The Gazette in this, the first of five dispatches on Chicago's gangland, treats of life and love in the underworld. Refusing to take the word of any one person or organization, Miss Witt has interviewed underworld habitués, ministers, police, reporters and civic officials and gotten a first-hand story of the most-talked-of underworld in the United States.)

By BONITA WITT
Staff Writer for Central Press and The Gazette
"Where, oh, where are the bad, bold gangsters?
Where, oh, where are they?"
(With apologies to the well-known college ditty.)

CHICAGO, March 23.—If you crave a speaking acquaintance with gangsters, if you yearn to see machine guns itching fire in the streets, if you desire to see an underworld—don't go to Chicago!

Chicago may have been bad once but today, the gangsters have departed for other parts—and Chicago is one of the best behaved cities in the United States.

Strange description of the "Windy City." It's one furnished by its city officials, who resent the reputation the newspapers have given their town.

Takes Nobody's Word
But this reporter was sent to Chicago to see for herself—to take nobody's word. And nobody's word she took. She combed highways and byways, trailing gangsters to their lair.

The power of Chicago's gangdom may be broken, as the police say it, nevertheless, its past prestige hasn't been forgotten and "getting in bad" with the underworld just isn't being done—yet. One man, who, through his business connections, knows as many of the city's bad men as any other individual, promised to take me to a cafe said to be frequented by the "beer baron gangsters." Talking it over with several of the "boys" I was to meet he decided it wouldn't be exactly "healthy" to introduce a reporter to them. No thing like that, he said, would lead to being "taken for a ride." Scores of persons have been "taken for rides" in the past few years in Chicago—rides from which they haven't returned.

There is one corner in West Chicago which has been the scene of several score unsolved murders, but a visit to a restaurant near the spot was uneventful. Gangland is respectable on the surface. In a certain pastry shop as you like a certain Italian past.

"GOING FOR A RIDE"
"GOING for a ride" in Chicago isn't as innocent as it sounds. A gun is shoved against the victim's side as he is walking along the street and he is ordered to enter a nearby car. Next day the police find his body along a country road.

It may be purchased in a little shop within walking distance of that central part of Chicago called the Loop. It is operated by a group of brothers said by police to be among the most notorious gangsters in the city. Yet a customer might go there for months without once suspecting that the little shop is not the only business of the swartzy brothers.

Conversation with the clerk disclosed there weren't any bad men in Chicago. No, ma'am, he hadn't seen a gangster or a fracas since he had left his native Palermo. Yet a glance around the shop reveals marks left by bombs hurled by a rival gang.

Amateur criminologists, who can "spot a crook on sight," would have a difficult time in Chicago.

Gangster Fashionplates
It seems gangsters here, and by gangsters Chicago means leaders of bootlegging, vice and gambling rings, are among the best dressed men in town. They are seen at first nights, in the orchestra circle. Jewels and gowns worn by their women rival those of the social leaders. As soon as gangsters begin to make money they go in for culture.

"But they do kill each other with

machine guns, don't they?" I asked.

Yes, indeed, but they kill only "when necessary." Men who know gangland say the liquor traffic has systematized the underworld so that everything is done on a business basis. A killing may mean a murder sentence, and a gangster can't have that—it would interfere with his business. Furthermore, it's only the lesser lights who hunt "pineapples," known to respectable folk as bombs. "Pineapples" are too lowly to be considered by the "beer baron."

Not Much for Chivalry
Another popular belief is destroyed when one learns that the real leaders of the underworld refuse to defend their sweethearts with guns against the attentions of a rival. Such a course might result in arrest and the "business" would suffer. Both life and love in the underworld are cheap.

Colorful tales of Chicago's lower stratum of society are plentiful, but actual evidences to it—that's another story. "Now if you had only come two years ago," a Chicagoan "on the in" says, "you could have seen dozens of gangsters in their favorite haunts. They were brazen and boastful, taunting the police with their immunity from arrest. Today an order to arrest all known underworld characters on sight has been issued by the police department and the gangsters are lying low until they see how the land lies. But they still are a power in Chicago."

As anyone who investigates soon learns. And I have been investi-

Radio Revue

BY C. KAY

Exclusive Central Press Dispatch to The Gazette

NEW YORK, March 24.—If some-time this summer listeners taking the air for entertainment hear a wild jumble of syllables giving the impression of a message from Mars, they need not wonder about the phenomenon. Chances are it will be a message in transmission over the new secret radio voice system.

The system was developed by S. P. Grace in the Bell telephone laboratories in New York, and will be available for commercial purposes in several months, both between cities in this country and over the transatlantic wireless phone circuit.

The device operates through an electric "brain," which picks up intentionally intermingled low and high frequencies, rearranging them and transmitting them to an apparatus that reverses the process on the other end.

A local code expert, asked if the system would make it impossible for enemy secret messages in time of war to be detected, said that probably it could be arranged to receive the jumble signals on a photograph record and then try them out on an assortment of the electric translators, which are used on the receiving end of the regular apparatus.

Another new radio device that is the subject of much speculation is the higher-power, short-wave tube which does such extraordinary things as producing fried eggs, unbaked baked apples, lights an incandescent lamp without wires or socket, and causes a cold copper bar to blister the hand.

Its action is so freakish that engineers say no one can estimate the possibilities of the device.

The heart of the apparatus is a vacuum tube set down in a wooden cage and surrounded by a network of wires, condensers and meters. The tube operates as a self-excited oscillator on a wave length of six meters, and is capable of radiating from ten to fifty kilowatts of high frequency power—probably fifty times as much as any previous short wave tube.

In experiments electrical meters in adjacent rooms run wild and delicate measuring instruments are twisted or broken.

The tube is nothing new in principle. Short radio waves have always been easy to produce at low power. Also, very high power has for some time been available at the longer wave lengths. This is the first time experiments have been able to combine the two, so as to get relatively large power outputs on short wave lengths.

Wool Growers' Chance

With the wool-growing countries of the Antipodes loaded to capacity with sheep, and still failing to meet the world demand for wool, American wool growers have a splendid opportunity to place their industry on the best financial basis in its history, according to J. P. Walker, a consulting specialist of the division of co-operative marketing for the United States Department of Agriculture.

Walker, who is an Ohio man, has just returned from a trip around the world, devoted to the study of wool production in other countries, especially Australia, New Zealand, and South Africa. He reports that wool production in each of those countries has reached the saturation point, and cannot be further expanded because of limiting climatic and geographic factors. Australia and South Africa, Walker reports, are between them carrying fifteen million head of sheep more than their safe limit.

"This heavy production," he points out, "has apparently not kept pace with consumptive demand. Wool stocks today are extremely low, with no apparent surplus anywhere in the world."

Walker recommends that American wool growers breed sheep producing the type of wool which will demand; prepare the wool properly for market; and market it with the same efficiency which is shown in Australia, New Zealand and South Africa.

I Have Said in My Heart

By IDA H. McCLONE GIBSON

PAIN IS NOT A SWEETENER

Contrary to the teaching of a famous beauty who advocates "Mind" for every beauty blemish, "Mind" on the little toe to jaundice, I believe that the condition of the body has a great effect upon the mind than mind has upon the body.

We cannot separate mind from body, and of the action of mind apart from the body we have no direct experience and absolutely no knowledge. Consequently all mental facts are first physical facts.

Pain—physical pain—is a purely animal sensation, and yet it can blot out every thought of anything but the terror of it and the agonizing effort to allay it in some way. You cannot think when you are in pain. You can only feel.

I know now that one might be overcome with deepest grief by following the person one loves most to his eternal rest, and if one should crush one's fingers on the motor door in the descent from the vehicle at the grave, every thought of grief would be swallowed up in the sensation of physical pain.

Some people say that pain sweetens one's character, but I have the same opinion of that idea that I have of the old cry that poverty is a great character builder.

These "axioms" roll glibly off one's tongue if one has never suffered grinding, galling poverty nor agonizing pain.

I know that pain leaves its imprint on the face. There is a little muscle that goes from the side of the mouth to the chin that physical pain draws down until one looks ten years older. This will go away in time if one tries immediately to laugh and be happy after the pain has gone.

Library Notes

In pursuance of its policy of making it as easy as possible for all county residents to receive good library service the Greene County District Library now announces its direct mail from library to patron service.

For some time patrons using branches have had the advantages of the main library as well as the branch book collections at their disposal. It has been customary

for branch librarians to send to the main library for special books wanted that they did not have in their collections. Books were mailed to branches with no charge to those wishing them.

Today the library announces an expansion of this service. Patrons desiring books may write or phone direct to the main library and to have books sent to them by mail. Current issues of magazines and reference books will not be mailed. The bound magazines will be mailed only in small quantities and when not needed for reference work at the main library, but all other books can be obtained in this way. The number sent will depend on the borrower since there is no limit to the number of books issued to a person over fourteen years of age. For this special service no charge will be made but the borrower will be asked to pay the postage both ways and to return books promptly.

Next time you want a book to read and can't get away from home to get it call Xenia 365-R and ask the librarian to send you a "good one".

The East High senior class play, "The Hoodoo," which will be reproduced Monday, March 26, 1928 at City Hall Theater at 8:15 p. m. is a bright, snappy comedy and a sure cure for the blues. This play was successfully given at the East High auditorium Friday, March 16 and has been credited as the best ever produced at East High. The production is being sponsored by the P. T. A. of East High and Lincoln Schools.

Mrs. Daisy Campbell and little son, Jean Bradley Campbell of Milford, O., are visiting her mother and daughter, Mrs. Eliza Ewell and Miss Malvena Campbell, Patton St.

Mrs. Mae Miles E. Market, St. and Mrs. Lydia Allen, E. Church St., are sponsoring a musical supper to be given at the home of Mrs. Miles next Thursday evening. The unique program will be under the management of the Junior Class of East High School, having perfected their plans Tuesday evening. The public is invited.

Mrs. Eliza Ewell, Patton St., entertained the Ladies Culture Club Thursday afternoon. Mrs. Daisy Campbell of Milford, O., gave an excellent address from the subject "Little Things Made Great." At the close of the program a delightful luncheon was served by the

TRAILING CHICAGO GANGS

Girl Reporter Invades Mid-West Metropolis Prepared for Machine Gun Fire, Hand Grenades and Bayonets—And Doesn't "Take a Ride"

Left to right, Miss Bonita Witt, the reporter trailing the gangsters; bird's-eye view of downtown Chicago; Chicago at night; Commissioner of Police Michael Hughes.

(Miss Bonita Witt, star writer for Central Press and The Gazette in this, the first of five dispatches on Chicago's gangland, treats of life and love in the underworld. Refusing to take the word of any one person or organization, Miss Witt has interviewed underworld habitués, ministers, police, reporters and civic officials and gotten a first-hand story of the most-talked-of underworld in the United States.)

By BONITA WITT
Staff Writer for Central Press and The Gazette
"Where, oh, where are the bad, bold gangsters?
Where, oh, where, are they?"
(With apologies to the well-known college ditty)

CHICAGO, March 23.—If you crave a speaking acquaintance with gangsters, if you yearn to see machine guns spitting fire in the streets, if you desire to see an underworld in a derelict, don't go to Chicago!

Chicago may have been bad once but, today, the gangsters have departed for other parts of the world.

Chicago is one of the best behaved cities in the United States.

Strange description of the "Windy City." It's one furnished by its city officials, who resent the reputation the newspapers have given their town.

Takes Nobody's Word But this reporter was sent to Chicago to see for herself—to take nobody's word. And nobody's word she took. She combed highways and byways, trailing gangsters to their lair.

The power of Chicago's gangdom may be broken, as the police say it, nevertheless, its past prestige hasn't been forgotten and "getting in bad" with the underworld just isn't being done—yet. One man, who, through his business connections, knows as many of the city's bad men as any other individual, promised to take me to a safe said to be frequented by "bear baron gangsters." Talking it over with several of the "boys" I was to meet he decided it wouldn't be exactly "healthy" to introduce a reporter to them. No one desires to do anything here that would lead to being "taken for a ride."

Amateur criminologists, who can "spot a crook on sight," would have a difficult time in Chicago.

Gangster Fashionplates It seems gangsters here, and by gangsters Chicago means leaders of bootlegging, vice and gambling rings, are among the best dressed men in town. They are seen at first nights, in the orchestra circle. Jewels and gowns worn by their women rival those of the social leaders. As soon as gangsters begin to make money they go in for culture.

"GOING FOR A RIDE" "GOING for a ride" in Chicago isn't as innocent as it sounds. A gun is shoved against the victim's side as he is walking along the street and he is ordered to enter a nearby car. Next day the police find his body along a country road.

try, it may be purchased in a little shop within walking distance of that central part of Chicago called the Loop. It is operated by a group of brothers said by police to be among the most notorious gangsters in the city. Yet a customer might go there for months without once suspecting that the little shop is not the only business of the swartzy brothers.

Conversation with the clerk disclosed there weren't any bad men in Chicago. No, ma'am, he hadn't seen a gangster or a frakas since he had left his native Palermo. Yet a glance around the shop reveals marks left by bombs hurled by a rival gang.

Amateur criminologists, who can "spot a crook on sight," would have a difficult time in Chicago.

machine guns, don't they?" I asked. Yes, indeed, but they kill only "when necessary." Men who know gangland say the liquor traffic has systematized the underworld so that everything is done on a business basis. A killing may mean a murder sentence, and a gangster can't have that—it would interfere with his business. Furthermore, it's only the lesser lights who hurl "pineapples," known to respectable folk as bombs. "Pineapples" are too loosely to be considered by the "beer baron."

Not Much for Chivalry Another popular belief is destroyed when one learns that the real leaders of the underworld gangs do not defend their sweethearts with guns against the attentions of a rival. Such a course might result in arrest and the "business" would suffer. Both life and love in the underworld are cheap.

Colorful tales of Chicago's lower stratum of society are plentiful, but actual evidences to it—that's another story.

"Now if you had only come two years ago," a Chicagoan "on the in" says, "you could have seen dozens of gangsters in their favorite haunts. They were brazen and boastful, taunting the police with their immunity from arrest. Today an order to arrest all known underworld characters on sight has been issued by the police department and the gangsters are lying low until they see how the land lies. But they still are a power in Chicago."

As anyone who investigates soon learns. And I have been investigating.

WOOL GROWERS' CHANCE With the wool-growing countries of the Antipodes loaded to capacity with sheep, and still failing to meet the world demand for wool, American wool growers have a splendid opportunity to place their industry on the best financial basis in its history, according to J. F. Walker, a consulting specialist of the division of co-operative marketing for the United States Department of Agriculture.

Walker, who is an Ohio man, has just returned from a trip around the world, devoted to the study of wool production in other countries, especially Australia, New Zealand, and South Africa. He reports that wool production in each of those countries has reached the saturation point, and cannot be further expanded because of limiting climatic and geographic factors. Australia and South Africa, Walker reports, are between them carrying fifteen million head of sheep more than their safe limit.

"This heavy production," he points out, "has apparently not kept pace with consumptive demand. Wool stocks today are extremely low, with no apparent surplus anywhere in the world."

Walker recommends that American wool growers breed sheep producing the type of wool which milks demand; prepare the wool properly for market; and market it with the same efficiency which is shown in Australia, New Zealand and South Africa.

I Have Said in My Heart

By IDA H. MCGLONE GIBSON
PAIN IS NOT A SWEETENER

Contrary to the teaching of a famous beauty who advocates "Mind" for every beauty ill, from a corn on the little toe to jaundice, I believe that the condition of the body has a great effect upon the mind and mind has upon the body.

We cannot separate mind from body, and of the action of mind apart from the body we have no direct experience and absolutely no knowledge. Consequently all mental facts are first physical facts.

Pain—physical pain—is a purely animal sensation, and yet it can blot out every thought of anything but the terror of it and the agonizing effort to allay it in some way. You cannot think when you are in pain. You can only feel.

I know now that one might be overcome with deepest grief while following the person one loves most to his eternal rest, and if one should crush one's fingers on the motor door in the descent from the vehicle at the grave, every thought of grief would be swallowed up in the sensation of physical pain.

Some people say that pain sweetens one's character, but I have the same opinion of that idea that I have of the old cry that poverty is a great character builder.

These "axioms" roll glibly off one's tongue if one has never suffered grinding, galling poverty nor agonizing pain.

I know that pain leaves its imprint on the face. There is a little muscle that goes from the side of the mouth to the chin that physical pain draws down until one looks ten years older. This will go away in time if one tries immediately to laugh and be happy after the pain has gone.

Sir Charles Bell says of laughter: "It signifies in all points the accession of vital force. Laughter builds up." This, too, you see, is a physical act, and the mere act of smiling and laughing will help one on to pleasant thoughts.

Memo: I do not believe, with Whittier, that "Hearts, like apples, are dry and sour till crushed by pain's relentless power."

The Theater

Nature follows art—sometimes. Real life follows the pattern imagined by the dramatist.

In the current stage hit, "The Royal Family," which, it has been said and denied, reflects the artistic temperaments of the members of the Barrymore family—one of the funniest scenes portrays the return home of a turbulent son of the family after a career in Hollywood as "the screen's great lover." One cause of the actor's departure is that he uses his fist to settle an argument with a movie director.

Only a little more than a month after this fiction reached the footlights, word comes from Hollywood that John Barrymore engaged in a fist fight with a director. And, accidentally, that actor is reported to be headed soon for New York.

Mrs. William B. Whelen, Philadelphia society woman, is making her operatic debut with the Philadelphia Grand Opera company as Micaela in Carmen. It is her first opera role. Heretofore Mrs. Whelen has appeared only in charity and amateur performances.

for the first time in three years, to attend the premiere of his new film, "Tempest."

Another New York stage success to trip the celluloid path is "The Racket," a crime play written by Barlett Cormack, Chicago newspaperman. It has been bought by Tom Meighan and that star will shortly begin filming it. Thus does "The Racket" follow "Chicago," the crime hit of the stage last season, which already has appeared successfully in the movies of Broadway.

Remember Harry T. Morey? When he used to play with Anita Stewart, Arthur Johnson and other old-time stars? He has been assigned to support Bebe Daniels in her next, "The Fifty-Fifty Girl." Morey will have the "heavy" role in the new film.

CITY - WIDE OBSERVANCE OF GOOD FRIDAY IS PLANNED HERE

City-wide observance of Good Friday, commemorating the death of Christ on the cross, will be effected in Xenia this year under plans sponsored by the Xenia Ministerial Association.

Protestant Churches will unite in a three-hour Good Friday service at the First Presbyterian Church, Market and King Sts., April 5 between the hours of 12 to 3 o'clock.

St. Bridget Catholic Church will have its usual Good Friday services, also between 12 and 3 in the afternoon. The movement for proper observance of the day is being made community-wide and

the majority of business houses will close during the hours of the service or at least, from 12 to 2 o'clock, it is announced.

Kiwanis and Rotary Clubs and the Xenia Retail Merchants Association have added their endorsement to the union program and cards will be distributed soon by the Ministerial Association designating stores that will be closed during the hours of the service.

The program at the First Presbyterian Church will be based on the subject, "Seven Words from the Cross." The program follows:

12 to 1:30 p. m.—Presiding chairman, the Rev. W. H. Tilford; organists, Roy Seifert and Miss Marjorie Street;

First Word—12:12:30—"Father forgive them for they know not what they do," Luke 23:34. Leader, the Rev. S. R. Burkett.

Second Word—12:30:1:00—"Verily I say unto thee, today thou shalt be with me in Paradise," Luke 23:43. Leader, the Rev. Carl O. Nybladh.

1 p. m.—Special Music—Christ Episcopal Church Choir.

Third Word—1 to 1:30—"Woman Behold Thy Son!"—"Behold thy Mother," John 19:26-27. Leader, the Rev. Joel Lunsford.

Second period—Presiding chairman, the Rev. D. A. Sellers; organist, Miss Theda Downing.

Fourth Word—1:30 to 2—"My God, My God, Why Hast Thou Forsaken Me?" Matthew 27:46; Mark 15:34. Leader, the Rev. L. A. Washburn.

Special music, 2 o'clock, the Presbyterian Church choir.

Fifth Word—2 to 2:30—"I Thirst," John 19:30. Leader, the Rev. J. P. Lytle. Special Music, First M. E. Church choir.

Sixth and seventh words—2:30 to 3—"It is Finished," Luke 23:46. Leader, the Rev. H. B. McElree.

Closing prayer, the Rev. A. J. Furstenberger.

People unable to stay for the entire service may come and go at their pleasure, the ministers announce, and an opportunity will be provided between each thirty-minute period to leave the service.

The Rev. W. N. Shank, pastor of the First M. E. Church, is chairman of the committee that has arranged the services.

INFIRMARY INMATE REMOVED BY DEATH

Mrs. Matilda Gibson, 55, former resident of Jamestown, died at the Greene County Infirmary, Friday night at 9 o'clock. Death was due to infirmities of age.

Mrs. Gibson had been in the infirmary about fifteen years. Her husband preceded her in death several years. One son is also deceased and a second son cannot be located.

Mrs. Gibson retained her membership in the Jamestown M. E. Church. Funeral services will be held at the infirmary Sunday afternoon at 2:30 and at the M. E. Church, Jamestown, at 3:30 o'clock. Burial will be made in Jamestown Cemetery.

AL SMITH'S DAUGHTER TO WED

Daughter of the Democratic Governor of New York, Miss Catherine Smith, is engaged to wed Francis Quillman, deputy attorney general of the state—and a staunch Republican. The wedding will take place June 9. The bride-to-be is Governor Smith's youngest daughter.

WIFE BRINGS SUIT HERE FOR DIVORCE

Although able to properly support her, what money her husband has earned has been spent largely for liquor and for his own "selfish pleasures," Ruth Isabelle Perrill charges in a suit for divorce from Charles Eldon Perrill, on file in Common Pleas Court.

The complainant charges that her husband has never furnished

her clothes since their marriage, May 21, 1923, that he compelled her to live with his people and that about a month ago she was ordered to leave the home of the defendant's parents, which has forced her to stay with her mother.

Plaintiff asks to be awarded custody of their minor child, Gloria Ruth, 4, and alimony for support of the child.

ALWAYS DEAD TIRED?

How sad! Sallow complexion, coated tongue, poor appetite, bad breath, pimply skin and always tired. What's wrong? You are poisoned. The bowels are clogged and liver inactive. Take this famous prescription used constantly in place of calomel by men and women for 20 years—Dr. Edwards' Olive Tablets. They are harmless yet very effective. A compound of vegetable ingredients and olive oil. They act easily upon the bowels, free the system of poison caused by faulty elimination and tone up liver.

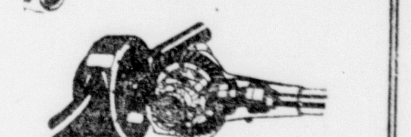

Be beautiful. Have rosy cheeks, clear eyes and youthful energy that make a success of life. Take Dr. Edwards' Olive Tablets, nightly. Know them by their olive color. 15c, 50c and 60c.

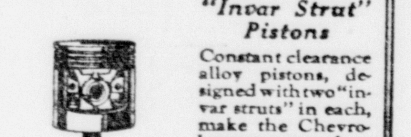

Fisher Bodies
Chevrolet is the lowest priced car in the world offering bodies by Fisher—famous for the world over for style leadership, comfort, modern design and the safety of combined hardwood and steel construction.

Adjustable Valve Tappets
The improved valve-in-head motor of the new Chevrolet has adjustable valve tappets—a feature which assures continued motor efficiency and quietness and prevents gradual loss of power and acceleration as the car is used.

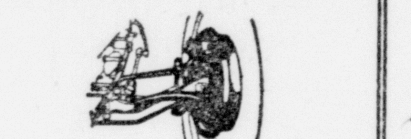

Rugged One-Piece Rear Axle
The rear axle of the Chevrolet is a unit proved by millions of miles of use. The differential mechanism and axle gears are securely mounted, while the housing is the one-piece type fitted with an inspection plate for convenient, inexpensive adjustment.

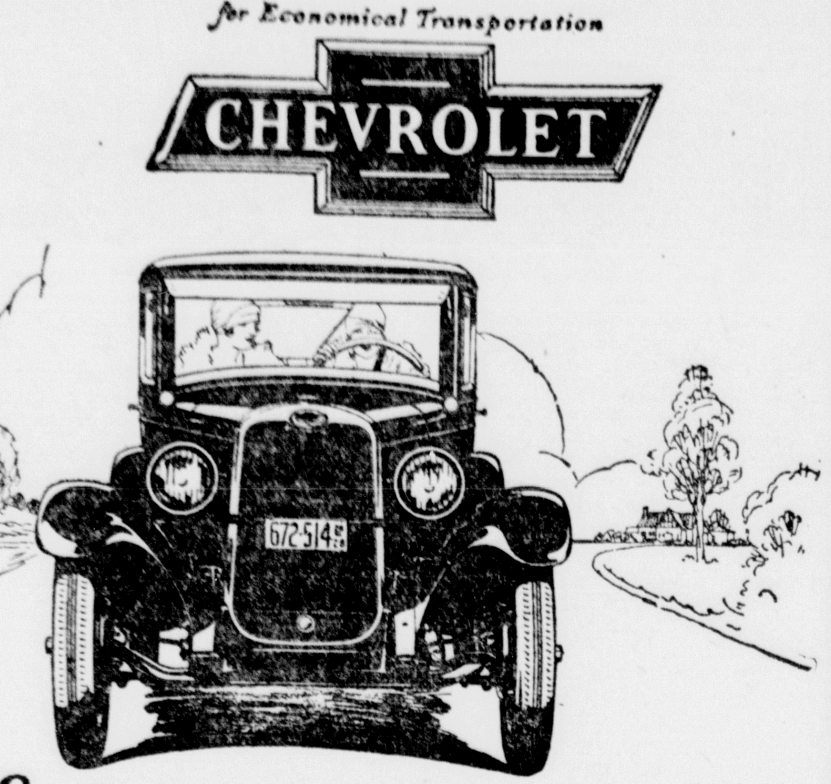

"Invar Strut" Pistons
Constant clearance allow pistons, designed with two "invar struts" in each, make the Chevrolet motor smoother snappier and more powerful. The cost of "invar struts" minimize expansion and contraction, permitting close fitting pistons to insure quietness and efficient operation.

Ball Bearing Steering Gear
The new Chevrolet handles with marvelous ease and surety—for the worm and gear steering mechanism is fitted with ball bearings throughout, even at the front axle knuckles.

Non-Locking Four-Wheel Brakes
with separate Emergency Brake
Chevrolet's four-wheel brakes were developed in cooperation with General Motors engineers. They are non-locking, have an area of 189 sq. in. and are separate from the emergency brake.

Embodying every modern feature of Advanced Automotive Design!

The Bigger and Better Chevrolet embodies every modern feature and completeness of detail demanded in the world's finest motor cars.

No matter what price you pay for an automobile, you cannot buy more modern design, more proved performance or more advanced engineering. Every unit of this remarkable car has been developed by engineers and scientists who are specialists in that particular technical field, and its quality, stamina and performance have been proved by tens of thousands of miles of testing at the General Motors Proving Ground!

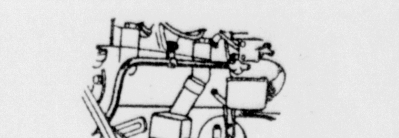

Come in and see for yourself! The more you know about engineering—the more quickly will you be convinced that here is quality in design, materials and construction never before available at such low prices!

Genuine Duco Finishes
All Chevrolet models are finished in modern shades of genuine Duco—the original, modern motor car finish which does not check or crack and which maintains its lustrous new car beauty indefinitely.

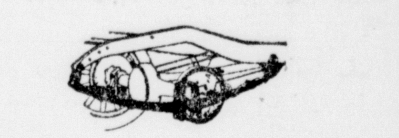

Crunkcase Breathing System
A ventilating system which clears the crankcase of vapors prior to condensation, minimizes oil dilution, and adds materially to the long life of the motor.

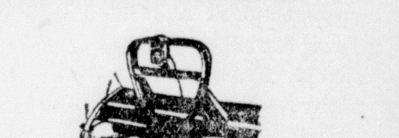

AC Oil Filter
The crankcase oil that is circulated by the self-priming pump is constantly forced through an AC oil filter which strains out dirt and foreign material, thereby increasing the life of all moving parts inside the motor.

AC Air Cleaner
An AC Air Cleaner is another motor safeguard which removes dust and grit from the air drawn into the carburetor—a modern feature which adds to car life and operating efficiency by reducing internal wear.

Semi-Elliptic Shock Absorber Springs
Comfort and safety over all roads is assured by Chevrolet's semi-elliptic shock absorber springs set parallel to the frame. These are 84% as long as the wheelbase and are made of fine chrome vanadium steel.

Safety Gasoline Tank
All Chevrolet models have a safety gasoline tank in the rear and a vacuum fuel system which assures positive gasoline supply even on the steepest hills. The tank is protected by a heavy steel cross member and is provided with a gasoline gauge.

The Only Light Car

offering all these Quality Features

Prices Reduced to the Lowest Level in Our History!

It is important to remember in considering the sensational Whippet price reductions, that the quality of these cars is now finer than ever before.

The perfected Whippet is smarter, more colorful, with added grace of line, and new items of equipment. Full-crown fenders, cadet visor, window reveals and other refinements give it the style appeal of the most modern fine cars.

Everywhere owners report their complete satisfaction with its spirited performance, its remarkable economy, its comfort and its easy handling.

"E" BRAND RIPE APRICOTS "E" BRAND PEACHES

The difference in flavor between fully ripe apricots and those that have been gathered while the fruit is still partially green cannot be described—you simply have to taste both kinds to appreciate how much richer, sweeter and how vastly finer in flavor the fully ripe apricots are. "E" BRAND APRICOTS are the first fully ripe apricots ever put on the market. Until you have tried them you cannot know how delicious canned apricots can be. They taste just like the luscious, golden "cots" just from the tree. Once try them and no other will quite satisfy.

For peaches that are simply perfection in flavor and quality we unhesitatingly point to "E" BRAND PEACHES. Open a can of these peaches, note how every thick golden half or slice is perfectly tender, yet firm and whole, see the rich, yellow juice, and then get that perfect peach fragrance and flavor! They are California yellow clings, noted the world over for their superb flavor, and every bushel is personally selected by the head of the Eavey Company who spends the summers in the California orchards choosing the fruit to be canned under the "E" label. The 1928 crop is the best this company has ever put on the market. You cannot buy finer peaches than these—and the prices allow you a substantial saving. Compare them with any others and see if this is not true. They come sliced or halved as desired.

CITY - WIDE OBSERVANCE OF GOOD FRIDAY IS PLANNED HERE

City-wide observance of Good Friday, commemorating the death of Christ on the cross, will be effected in Xenia this year under plans sponsored by the Xenia Ministerial Association.

Protestant Churches will unite in a three-hour Good Friday service the First Presbyterian Church, Market and King Sts., April 5 between the hours of 12 to 3 o'clock.

St. Brigid Catholic Church will have its usual Good Friday services, also between 12 and 3 in the afternoon.

The movement for proper observance of the day is being made community-wide and

the majority of business houses will close during the hours of the service or at least, from 12 to 2 o'clock, it is announced.

Kiwanis and Rotary Clubs and the Xenia Retail Merchants Association have added their endorsement to the union program and cards will be distributed soon by the Ministerial Association designating stores that will be closed during the hours of the service.

The program at the First Presbyterian Church will be based on the subject, "Seven Words from the Cross." The program follows:

12 to 1:30 p. m.—Presiding chairman, the Rev. W. H. Tilford; organists, Roy Seltzer and Miss Marjorie Street.

First Word—12:12:30—"Father forgive them for they know not what they do." Luke 23:34. Leader, the Rev. S. R. Burkett.

Second Word—12:30:1:00—"Verily I say unto thee, today thou shalt be with me in Paradise." Luke 23:43. Leader, the Rev. Carl O. Nybladh.

1 p. m.—Special Music—Christ Episcopal Church choir.

Third Word—1 to 1:30—"Woman Behold Thy Son!"—"Behold thy Mother!" John 19:26-27. Leader, the Rev. Joel Lunsford.

Second period—Presiding chairman, the Rev. D. A. Sellers; organist, Miss Theda Downing.

Fourth Word—1:30 to 2—"My God, My God, Why Hast Thou Forsaken Me?" Matthew 27:46; Mark 15:34. Leader, the Rev. L. A. Washburn.

Special music, 2 o'clock. The Presbyterian Church choir.

Fifth Word—2 to 2:30—"I Thirst!" John 19:30. Leader, the Rev. J. P. Lytle. Special Music, First M. E. Church choir.

Sixth and seventh words—2:30 to 3—"It is Finished!" John 19:30 and "Father, into Thy hands I commit My Spirit!" Luke 23:46. Leader, the Rev. H. B. McElree.

Closing prayer, the Rev. A. J. Furstenberger.

People unable to stay for the entire service may come and go at their pleasure, the ministers announce, and an opportunity will be provided between each thirty-minute period to leave the service.

The Rev. W. N. Shank, pastor of the First M. E. Church, is chairman of the committee that has arranged the services.

WIFE BRINGS SUIT HERE FOR DIVORCE

Although able to properly support her, what money her husband has earned has been spent largely for liquor and for his own "selfish pleasures," Ruth Isabelle Perrill charges in a suit for divorce from Charles Eldon Perrill, on file in Common Pleas Court.

The complaint charges that her husband has never furnished

her clothes since their marriage, May 21, 1923, that he compelled her to live with his people and that about a month ago she was ordered to leave the home of the defendant's parents, which has forced her to stay with her mother.

Plaintiff asks to be awarded custody of their minor child, Gloria Ruth, 4, and alimony for support of the child.

PREMIER RESISTS

VIENNA, March 23.—Premier Brattanu, of Roumania, whose

resignation is being demanded by the National Peasant group, does not intend to quit without a fight, according to advices from Bucharest today. He was declared vacant the seats of absent peasant deputies in the Roumanian parliament to strengthen his own grip upon that body.

FIREMEN RESPOND TO THIRTY NINE FIRES

A grass fire on a vacant lot at

207 Walnut St., Friday afternoon at 2:15 o'clock gave the fire department its thirty-ninth alarm for the year.

At approximately the same time in 1927, only eighteen alarms had been answered.

The small blaze Friday, resulting from burning rubbish, caused no damage. The property is owned by Mrs. Anna Miller.

Fisher Bodies
Chevrolet is the lowest priced car in the world offering bodies by Fisher—famous the world over for style leadership, comfort, modern design and the safety of combined hardwood and steel construction.

Adjustable Valve Tappets
The improved valve-in-head motor of the new Chevrolet has adjustable valve tappets—a feature which assures continued motor efficiency and quietness and prevents gradual loss of power and acceleration as the car is used.

Rugged One-Piece Rear Axle
The rear axle of the Chevrolet is a unit proved by millions of miles of use. The differential mechanism and side gears are securely mounted, while the housing is the one-piece type fitted with an inspection plate for convenient, inexpensive adjustment.

"Invar Strat" Pistons
Constant clearance pistons, designed with "invar struts" in each, make the Chevrolet motor smoother snappier and more powerful. The "invar struts" minimize expansion and contraction, permitting close fitting pistons to insure quietness and efficient operation.

Ball Bearing Steering Gear
The new Chevrolet handles with marvelous ease and surety—for the worm and gear steering mechanism is fitted with ball bearings throughout, even at the front axle knuckles.

Non-Locking Four-Wheel Brakes
with separate Emergency Brake
Chevrolet's four-wheel brakes were developed in cooperation with General Motors engineers. They are non-locking, have an area of 160 sq. in. and are separate from the emergency brake.

For Economical Transportation

Embodiment every modern feature of Advanced Automotive Design!

The Bigger and Better Chevrolet embodies every modern feature and completeness of detail demanded in the world's finest motor cars.

No matter what price you pay for an automobile, you cannot buy more modern design, more proved performance or more advanced engineering. Every unit of this remarkable car has been developed by engineers and scientists who are specialists in that particular technical field, and its quality, stamina and performance have been proved by tens of thousands of miles of testing at the General Motors Proving Ground!

Come in and see for yourself! The more you know about engineering—the more quickly will you be convinced that here is quality in design, materials and construction never before available at such low prices!

Genuine Duco Finishes
All Chevrolet models are finished in modern shades of genuine Duco—the original, modern motor car finish which does not check or crack and which maintains its lustrous new car beauty indefinitely.

Crankcase Breathing System
A ventilating system which cleans the crankcase of vapors prior to condensation, minimizes oil dilution, and adds materially to the long life of the motor.

AC Oil Filter
The crankcase oil that is circulated by the self-priming pump is constantly forced through an AC oil filter which strains out dirt and foreign material, thereby increasing the life of all moving parts inside the motor.

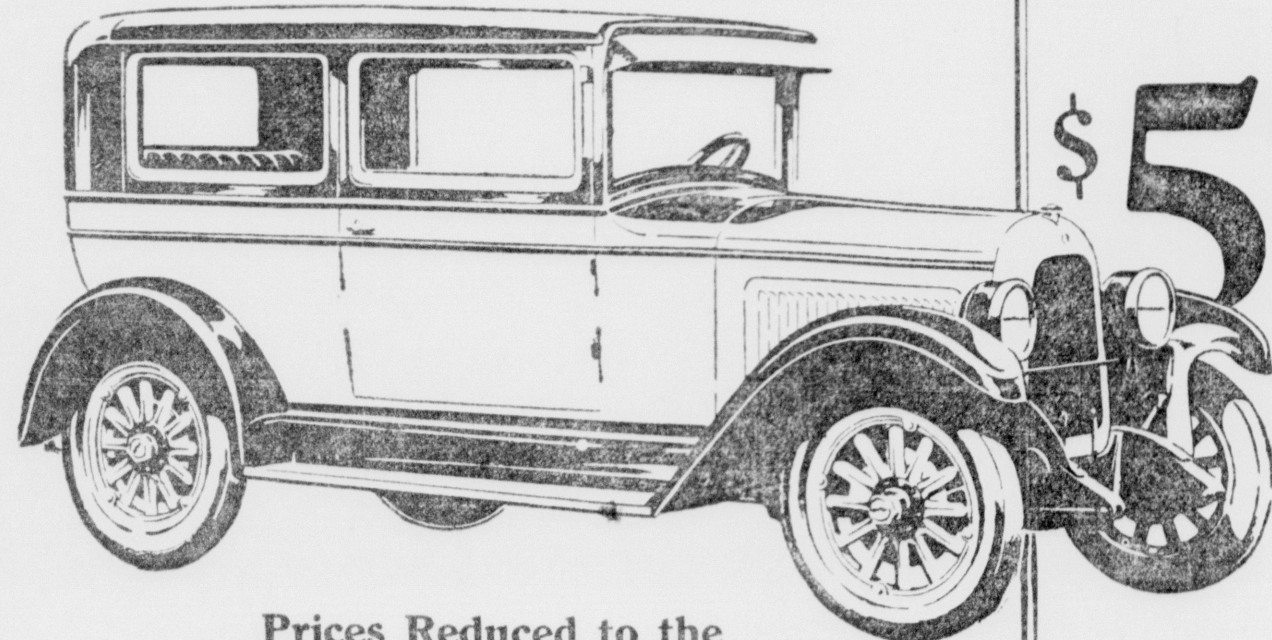

AC Air Cleaner
An AC Air Cleaner is another motor safeguard which removes dust and grit from the air drawn into the carburetor—a most efficient feature which adds to car life and operating efficiency by reducing internal wear.

Semi-Elliptic Shock Absorber Springs
Comfort and safety over all roads is assured by Chevrolet's semi-elliptic shock absorber springs set parallel to the frame. These are 84" as long as the wheelbase and are made of fine chrome vanadium steel.

Safety Gasoline Tank
All Chevrolet models have a safety gasoline tank in the rear and a vacuum fuel system which assures positive gasoline supply even on the steepest hills. The tank is protected by a heavy steel cross member and is provided with a gasoline gauge.
